

**Postgraduate Seminar Semester 2, 2011**

<b>Date Tuesday 1-2 pm</b>	<b>Speaker</b>	<b>Title</b>
5 July 2011	Miriam Den	Neural mechanisms underlying fear extinction across development: The effects of inhibiting glucocorticoid and endocannabinoid neurotransmission.
12 July 2011	Lily Tao  Justine Fam	Effect of early home language environment on perception and production of speech  "The neural correlates of decision making"
19 July 2011	Jesse Hancock  Hui Chai	Affect, cognition & behaviour in simulated environments  The effects of framing on climate-related decisions
26 July 2011	Kathryn Hutton-Bedbrook  Michelle Jiang	Extinction of drug seeking  Attention, Memory and Body Image
2 July 2011	Sarah Krigstein  Jessica Cheung	The developmental pathway of Episodic Future Thinking  The role of arousal in the development of intrusions
9 August 2011	Connie Lee  Joe Xu	Promoting Work Ability in Older Australian Workers  'The semantic influences on complex word processing'
16 August 2011	Janice Liew  Diana Matovic	Reasoning in obsessive-compulsive disorder  Mood Effects on Verbal Communication
23 August 2011	Helena Pacitti  Suraj Samtani	Methamphetamine-induced habits.  Measuring the Facets of Repetitive Thought
30 August 2011	Stephanie Roughley  Donna Li	Differentiating motivational representation in the amygdale  Memory for Workplace Accidents
6 September 2011	Aliza Werner-Seidler	"The role of autobiographical memory in depressive disorders".
13 September 2011	Alexandra Vlassova	"The Neurobiology of Emotional Memory Consolidation: Understanding Gender Differences in the development of PTSD"

21 June, 2011

	Jacinta Wassell	
20 September 2011	Therese English Julia Tobin	"Love is all you need? Emotional Engagement treatment for children with callous unemotional traits"  "Homophobic bullying in schools"
27 September 2011	Macy Chan	"Effects of non-reinforced exposure to a CS on the extinction and recovery of conditioned responding in Pavlovian conditioning"
4 October 2011	Alexis Whitton	"Turning your nose up at the wrong and the rancid: An investigation into the psychophysiological manifestations of moral and pathological disgust"
11 October 2011	Beata Robins  Jessamine Chen	"Are Neutral Faces Really Neutral? Social anxiety and the interplay between perceptual, attentional and affective processing."  "Intolerance of Uncertainty: Investigation of underlying mechanisms"
18 October 2011	Shruit Venkatesh	The possible mechanisms of depressive realism".
25 October 2011	Kandice Varcin	The Social Neuroscience of Early Affective Responding in Schizophrenia
1 November 2011	Andrea Willcocks	The role of mPFC subregions in the reacquisition and renewal of extinguished alcoholic beer-seeking
8 November 2011	Charleen Maretti	"Psychopathy and Aggression: Testing the Violence Inhibition Mechanism Model"
15 November 2011	Steve Makkar	"The role of post-event processing in the maintenance social anxiety"
22 November 2011	Chris Papadopoulos	"Categorisation and Induction"
29 November 2011	Supalak Luadlai	TBC
6 December 2011	Eva Battaglini  Matthew Henricks	Neural bases of Intrusive Memories  "Towards a practical model of Organisational Change Readiness which incorporates mediating variables"
