Never Stand Still

**UNSW**  
AUSTRALIA

Temper Tantrums  
Disobedience  
**Anger & Irritability**  
Low Motivation

Little Remorse  
**Little Empathy**  
Shallow Emotions  
Discipline is Ineffective

You may be eligible to participate in a University of New South Wales research study to provide skills to better manage your child's problem behaviours. Families will receive standard or enhanced Parent-Child Interaction Therapy (PCIT) - found to be an effective approach for reducing problem behaviours in children 3 to 7 years old.

Contact us to see if you are eligible.  
Refer to 'PCIT Clinic'
