## NOTES

**Students wishing to undertake a complementary major in Neuroscience, if taking ANAT3411 and PHAR3202 at Level 3, should be aware that it will not be possible to complete it along with a Psychology major within 144 UOC. It will involve additional time and cost and will have visa implications for international students.**

- (i) A Neuroscience major requires 84 UOC. However, up to 42 UOC can be psychology courses (PSYC1001, PSYC1011, PSYC2001, PSYC2071, PSYC2081, PSYC3051 and PSYC3221). The above Plan allows for 60 UOC of non-psychology neuroscience courses and double-counting of 24 UOC psychology courses for both the Psychology and the Neuroscience majors.
- (ii) PSYC3XXX represents a Level 3 Psychology elective. You must complete a *minimum* of 18 UOC from Level 3 Psychology electives including ONE course from each of the elective groups listed below. Students who wish to have PSYC3221 counted towards both the Psychology major and the Neuroscience majors must take a further 6 UOC elective.

### *Elective Stream A*

- (iii) PSYC3211 Cognitive Science (6 UOC)
- (iv) PSYC3221 Vision & Brain (6 UOC)
- (v) PSYC3241 Psychobiology of Memory & Motivation (6 UOC)
- (vi) PSYC3311 Language & Cognition (6 UOC)
- (vii) PSYC3371 Multivariate Data Analysis for Psychology (6 UOC)

### *Elective Stream B*
