1. Information about the Course			
FACULTY	Science		
SCHOOL OR DEPARTMENT	Psychology		
COURSE CODE	PSYC1024		
COURSE NAME	Clinical Perspectives on Anxiety, Mood, & Stress		
SEMESTER	Semester 2	YEAR	2015
UNITS OF CREDIT	6	LEVEL OF COURSE	General/1
ASSUMED KNOWLEDGE, PREREQUISITES OR CO-REQUISITES	None		
SUMMARY OF THE COURSE	<p>The course will provide a comprehensive understanding of several of the most common mental disorders, including the mood and anxiety disorders, from a clinical psychology perspective. The aim is to link basic psychological research (including animal and human studies) to the understanding of these major disorders, emphasising a scientific approach to the understanding of clinical psychology and psychology more generally. The course will focus upon the role of environmental stress factors in the aetiology of these disorders. The course will also examine several practical strategies for managing stress. The course is taught entirely online using the e-learning Moodle site [https://student.unsw.edu.au/moodle]. The final exam will be conducted during the official exam period (date and location TBA) and will be done on campus (i.e. not on Moodle).</p>		

2. Staff Involved in the Course				
COURSE COORDINATOR				
Name	Phone	Email	Office	Contact Time & Availability
Helena Pacitti	Contact via email	h.pacitti@unsw.edu.au	Mat 1501	Mon-Fri 9am-5pm (if meeting/consult is required I am available on Thu or Fri business hours only) Preferred contact via email
LECTURERS				
Name	Phone	Email	Office	Contact Time & Availability
Dr Joshua Broderick	N/A	N/A	N/A	All questions regarding course content should be directed to Helena Pacitti
TUTORS & DEMONSTRATORS				
Name	Phone	Email	Office	Contact Time & Availability
Nil	N/A	N/A	N/A	N/A

3. Course Timetable

Component	Class Number	Time	Day	Location
Lecture 1	1	Available at 9am week starting	27/07/2015	Web
Lectures 2, 3	2	Available at 9am week starting	03/08//2015	Web
Lectures 4, 5	3	Available at 9am week starting	10/08/2015	Web
Lectures 6, 7	4	Available at 9am week starting	17/08/2015	Web
Lecture 8	5	Available at 9am week starting	24/08/2015	Web
Research and Writing Skills	6	Available at 9am week starting	31/08/2015	Web
Lectures 9, 10	7	Available at 9am week starting	07/09/2015	Web
Lectures 10, 11	8	Available at 9am week starting	14/09/2015	Web
Lecture 12	9	Available at 9am week starting	21/09/2015	Web
Lecture 13	10	Available at 9am week starting	05/10/2015	Web
Lecture 14	11	Available at 9am week starting	12/10/2015	Web
Lecture 15	12	Available at 9am week starting	19/10/2015	Web
Revision			26/10/2015	

NB. Course timetables are subject to change without notice. Students are advised to check regularly for updates on the Moodle course site.

4. Aims of the Course

The general aim of this course is to examine clinical psychology perspectives on some of the most commonly occurring mental disorders in the general population. The disorders to be examined include the anxiety disorders (including e.g., obsessive-compulsive disorder, social phobia, post-traumatic stress disorder) and the mood disorders (including e.g., major depressive disorder and bi-polar I and II disorders). The course will focus upon the role of environmental stress factors in the aetiology of these disorders, with a particular focus on the bio-psychosocial approach to health. The course will also examine several practical strategies for managing stress.

5. Student Learning Outcomes

By the end of this course you will be able to:

1.	You will be able to demonstrate knowledge of the major features of several mood and anxiety disorders, their aetiology and current theories and models of their underlying mechanisms
2.	You will have an understanding of the role of basic, scientific method based, psychological research in informing theoretical understanding of mental health disorders
3.	You will have an understanding of the role of environmental stress in the manifestation of symptoms of mental health disorders
4.	You will improve your skills in critical thinking and conceptual analysis. This skill will enable you to critically analyse scientific reports presented in the media.

6. Core Graduate Capabilities and Attributes		
School of Psychology Core Graduate Capabilities and Attributes*	Level of Focus 0 = No focus 1 = Minimal 2 = Minor 3 = Major	Activities/Assessment
1. Core knowledge and understanding	3	Acquire knowledge of abnormal psychology, biological bases of behaviour, cognition, individual differences, learning, lifespan development, motivation and emotion, historical psychology, clinical service delivery, epidemiology.
2. Research methods in psychology	2	Understand science of psychology, apply and evaluate different research methods, critically analyse theoretical and empirical studies
3. Critical thinking skills	2	Apply knowledge of the scientific method in thinking about problems related to anxiety, mood and stress.
4. Values, research and professional ethics	0	
5. Teamwork, collaborative and management skills	0	
6. Communication skills	2	Write a standard essay using American Psychological Association (APA) structure and formatting conventions.
7. Learning and application of psychology	2	Apply knowledge of psychology, society, & clinical practice.

7. Rationale for the Inclusion of Content and Teaching Approach
<p>All teaching strategies are designed to educate students on the learning outcomes and graduate attributes outlined in the above sections (4, 5, and 6). The lecture material is intended to provide you with the majority of information required to gain an in depth knowledge of anxiety, mood and stress from the perspective of clinical psychology – not only of these specific disorders, but also of the scientific processes utilized in the study and treatment of them. The lectures will be presented as audio and visual lectures online to facilitate the encoding and understanding of the material. The research and writing skills workshop will provide you with an important introduction and development of your research skills both in finding relevant information using databases, but also in reading understanding and then clearly communicating these ideas in the essay.</p> <p>The examination (quizzes) will provide you with an opportunity to test your understanding of course material.</p>

8. Teaching Strategies
<p>The course content is taught entirely online via the Moodle eLearning website. Lectures with a visual and audio component will be the main teaching method. There will be a “Test Yourself” short quiz made available early in the course to allow students to gauge their understanding of the course and what level of understanding is expected in the course. The mid-session multiple choice exam will be also be held online.</p>

* Australian Psychological Accreditation Council. (2010). *Rules for Accreditation and Accreditation Standards for Psychology Courses*. Melbourne, Australia, Section 5.1.2. Retrieved from <file:///C:/Users/cyleung/Downloads/APAC-Rules-for-Accreditation-and-Accreditation-Standards-for-Psychology-Courses---10-June-2010.PDF>

The final exam will be a multiple choice questionnaire and will be done on campus. The long answer format essay is to be submitted online via Turnitin.

9. Course Schedule			
Week	Lecture Topic	Content	Suggested Readings
1	1a -What is Science 1b -What is Science 1c -What is Science	3 online lectures (110 mins)	
2	2-a-what is Clinical Psychology? 2-b-what is Clinical Psychology? 3-a-what is anxiety 3-b-what is anxiety	4 online lectures (86 mins)	
3	4-a-what is mood and stress 4-b-what is mood and stress 5-a-what is classical conditioning 5-b-what is classical conditioning 5-c-what is classical conditioning	5 online lectures (103 mins)	
4	6-a-what is operant conditioning 6-b-what is operant conditioning 7-a-what is exposure 7-b-what is exposure 7-c-what is exposure	5 online lectures (89 mins)	
5	8-a-what is cognition 8-b-what is cognition 8-c-what is cognition	4 online lectures (93 mins)	
6	Researching and writing skills workshop	Online lectures (no audio)	
7	9-a-what are cognitive biases and problematic thoughts 9-b-what are cognitive biases and problematic thoughts 9-c-what are cognitive biases and problematic thoughts 10-a-what is the role of genetics 10-b-what is the role of genetics	5 online lectures (102 mins)	
8	10-c-what is the role of genetics 11-a-what is behavioural activation 11-b-what is behavioural activation 11-c-what is behavioural activation	4 online lectures (107 mins)	
9	12-a-what are the negative impacts of drugs on mental health 12-b-what are the negative impacts of drugs on mental health 12-c-what are the negative impacts of drugs on mental health	3 online lectures (85 mins)	
10	13-a-what is social anxiety 13-b-what is social anxiety 13-c-what is social anxiety	3 online lectures (63 mins)	
11	14-a-what is perfectionism 14-b-what is perfectionism	2 online lectures (44 mins)	
12	15-a-what is the function of sleep 15-b-what is the function of sleep	2 online lectures (46 mins)	

10. Assessment

Assessment Task	Weight	Learning Outcomes Assessed	Graduate Attributes Assessed	Date of		Feedback		
				Release	Submission	Who	When	How
"Test Yourself" – 12 (non-assessed) multiple choice questionnaire (MCQ) online test	0	1, 2, 3	1, 2	17/08/2015	-		Immediate	Moodle
Mid-Session Exam – 30 MCQ online exam -	20%	1, 2, 3	1, 2	24/08/2015 (9am)	28/08/2015 (5pm)		Immediate	Moodle
1000 word essay submitted to Turnitin	40%	1, 2, 3, 4	1, 2, 3, 6, 7	31/08/2015	12/10/2015 (5pm)	Pacitti	05/11/2015	Moodle
Final Exam – 80 MCQ exam	40%	1, 2, 3	1, 2	Exam Period TBA				

1. **The "Test Yourself" non-assessed multiple choice (MCQ) online test** will be made available on Moodle on 17/08/2015. This will contain 12 multiple choice questions covering Topics 1, 2, 3, 4, 5 & 6, the test will be 9 minutes long (45 seconds per question). This test will allow students to gauge their understanding of the course material prior to the census date to drop the course without financial penalty (31/08/2015) and the census date to drop the course without academic penalty (13/09/2015). This quiz will be left available for the duration of the course as it will allow students to verify the capability of their computer/browser/internet connection prior to the mid-session exam. This test can be repeated any number of times and the results do not count towards the overall course mark.
2. **The Mid-Session Exam** will contain 30 assessed MCQs from topics 1, 2, 3, 4, 5, 6, 7 & 8. The test will be made available on the Moodle web page (i.e. an online test) at 9 a.m. on Monday [24/08/2015] and will be taken offline at 5 p.m. on Friday [28/08/2015]. This means that there is approximately 5 days in which the exam will be made available for students to attempt it. The exam is worth 20% of the total course mark and completion of this exam is a requirement of this course. The exam will be 22.5 minutes long (45 seconds per question). The time limit on these MCQ tests means that the exams should not be attempted "open book" with reference material nearby, as there is not enough time to consult any reference material to answer these questions. The time limit will provide ample opportunity for students to read and answer all the MCQs. Note that this exam provides a further assessment of your understanding of the course material prior to the census date to drop the course without financial penalty (31/08/2015) and the census date to drop the course without academic penalty (13/09/2015). This should allow students to make an informed decision about their progress in this course up to this point.
3. **The 1000 word essay** question will be made available on Monday [31/08/2015] and will be worth 40% of the total course mark. The essay is due on Monday [12/10/2015] by 5 p.m. and must be submitted to the Turnitin link provided on the Moodle course webpage. A brief researching and writing skills workshop will be made available on Moodle during week 6 to provide further help to students on how to approach this essay.
4. **The Final Exam** will contain 80 MCQ taken from *all the topics* in the course and will be worth 40% of the total course mark i.e. 0.5% per question (equally weighted). The exam will be conducted during the official exam period for the semester (time and location TBA), and will be done on campus [i.e. **NOT on Moodle**]. Further details regarding the exact time and location of the exam will be released as they become available.

Note that all assessments are to be done online on the Moodle website (except the final exam).

Although this course is delivered online, it is a university requirement that enrolled students be within the country whilst completing coursework and examinations.

Please note that all assessable components of the course must be attempted and submitted to pass this course. You must complete the mid-session exam, the final exam and submit the essay. Failure to complete any of these three components will prevent you from passing this course.

11. Expected Resources for Students

TEXTBOOKS	No set text
COURSE MANUAL	Available via Moodle
REQUIRED READINGS	Available via Moodle
RECOMMENDED INTERNET SITES	Moodle

12. Course Evaluation & Development

Courses are periodically reviewed and students' feedback is used to improve them. Feedback is gathered using various means including UNSW's Course and Teaching Evaluation and Improvement (CATEI) process.

13. Plagiarism & Academic Integrity

What is plagiarism?

Plagiarism is presenting someone else's thoughts or work as your own. It can take many forms, from not having appropriate academic referencing to deliberate cheating.

UNSW groups plagiarism into the following categories:

- **Copying:** using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.
- **Inappropriate paraphrasing:** changing a few words and phrases while mostly retaining the original structure and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit. It also applies to piecing together quotes and paraphrases into a new whole, without referencing and a student's own analysis to bring the material together.
- **Collusion:** working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.
- **Duplication:** submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Where can I find out more information?

In many cases plagiarism is the result of inexperience about academic conventions. The University has resources and information to assist you to avoid plagiarism. The first place you can look is the section about referencing and plagiarism in each Course Guide, as this will also include information specific to the discipline the course is from. There are also other sources of assistance at UNSW:

- **How can the Learning Centre help me?**

The Learning Centre assists students with understanding academic integrity and how to not plagiarise. Information is available on their website: <http://www.lc.unsw.edu.au/academic-integrity-plagiarism>. They also hold workshops and can help students one-on-one.

- **How can Elise help me?**

ELISE (Enabling Library & Information Skills for Everyone) is an online tutorial to help you understand how to find and use information for your assignments or research. It will help you to search databases, identify good quality information and write assignments. It will also help you understand plagiarism and how to avoid it. All undergraduate students have to review the ELISE tutorial in their first semester and complete the quiz, but any student can review it to improve their knowledge: <http://subjectguides.library.unsw.edu.au/elise>.

- **What is Turnitin?**

Turnitin is a checking database which reviews your work and compares it to an international collection of books, journals, Internet pages and other student's assignments. The database checks referencing and whether you have copied something from another student, resource, or

off the Internet. Sometimes students submit their work into Turnitin when they hand it in, but academics can also use it to check a student's work when they are marking it. You can find out more about Turnitin here: <https://teaching.unsw.edu.au/elearning>.

What if plagiarism is found in my work?

If plagiarism is found in your work when you are in first year, your lecturer will offer you assistance to improve your academic skills. They may ask you to look at some online resources, attend the Learning Centre, or sometimes resubmit your work with the problem fixed. However more serious instances in first year, such as stealing another student's work or paying someone to do your work, may be investigated under the Student Misconduct Procedures.

Repeated plagiarism (even in first year), plagiarism after first year, or serious instances, may also be investigated under the Student Misconduct Procedures. The penalties under the procedures can include a reduction in marks, failing a course or for the most serious matters (like plagiarism in a honours thesis) even suspension from the university. The Student Misconduct Procedures are available here

<https://www.gs.unsw.edu.au/policy/documents/studentmisconductprocedures.pdf>

Examples of plagiarism

Using the internet appropriately

A first year student handed in an assignment where she had copied from a website. Her lecturer realised she didn't understand you have to reference websites in the same way you reference books and journal articles. The lecturer explained how to reference and sent her to a workshop at the Learning Centre to help her improve her skills.

Working together on a math assignment

A group of Mathematics students worked together on an assignment when they had been told this was not allowed. All questions where the students had worked together were given zero, and this led to some student failing the assessment.

No referencing in an assessment

A third year student submitted a major assessment that included material from a journal article published in Canada. When his essay was submitted into Turnitin, it let the academic know that the student didn't reference the material. The student was given zero for the essay, and because it was worth 50 per cent he failed the course.

Copying design work

A final year design student used images of someone else's designs in her work and he said the designs were his own. The matter was formally investigated by his Faculty and he was found to have committed academic misconduct and failed the course.

Further information and assistance

If you would like further information or assistance with avoiding plagiarism, you can contact the Learning Centre. The Learning Centre at The University of New South Wales has two locations:

UNSW Learning Centre

Lower Ground Floor, North Wing, Chancellery Building
(C22 Kensington Campus – near Student Central)

<http://www.lc.unsw.edu.au/>

Phone: 9385 2060

Email: learningcentre@unsw.edu.au

Opening Hours:

Monday to Thursday: 9am - 5pm and

Friday: 9am - 2.30pm

COFA Campus Learning Centre

Email: cofalearningcentre@unsw.edu.au

Phone: 9385 0739

14. Administrative Matters

The *School of Psychology Student Guide*, available on <http://www.psy.unsw.edu.au/current-students/student-guide>, contains School policies and procedures relevant for all students enrolled in undergraduate or Masters psychology courses, such as:

- Attendance requirements;
- Assignment submissions and returns;
- Assessments;
- Special consideration in the event of illness or misadventure;
- Student Code of Conduct;
- Student complaints and grievances;
- Student Equity and Disability Unit; and
- Occupational Health & Safety.

Students should familiarise themselves with the information contained in this *Guide*.
