| SUMMARY OF THE COURSE | This course deals with psychological assessment, personality and psychopathology. The assessment portion of the course will include key concepts in personality and intelligence testing. The psychopathology portion of the course is an introduction to the study of maladaptive behaviour and mental disorders. The course will provide an overview of common mental disorders, including anxiety, mood, eating, childhood, and psychotic disorders. Emphasis will be placed on diagnostic criteria, contemporary theories of psychopathology, and empirically supported approaches to treating mental disorders. | | | | |

4. Aims of the Course

The course is an introduction to the study of assessment, maladaptive behaviour and mental disorders.

The aims of the course are to provide you with:

- 1. An understanding of issues related to psychological assessment, including neuropsychological, personality, and intelligence assessment
- 2. An appreciation of general issues relating to the classification and causation of mental disorders
- 3. Knowledge of the major features of specific disorders, their aetiology and current theories and models of their underlying mechanisms
- 4. A brief overview of somatic and psychological approaches to the treatment of mental disorders
- 5. Improved skills in critical thinking, conceptual analysis, and oral and written expression

| 5. | 5. Student Learning Outcomes | | | | | | |
|----|--|---|--|--|--|--|--|
| Ву | By the end of this course you will have: | | | | | | |
| 1. | A knowledge and understanding of psychology with regard to: | 1.1. issues relating to psychological assessment, including in the areas of neuropsychological, intelligence and personality testing 1.2. general issues relating to the identification and classification of mental disorders | | | | | |
| 2. | Come to understand and apply psychological principles derived from an understanding of psychopathology, including the ability to describe: | 2.1 the major clinical features of a number of psychological disorders including mood, anxiety, eating, psychotic and substance-related disorders 2.2 current theories as to the etiology and underlying mechanisms of these specific psychological disorders 2.3 somatic and psychological approaches to the treatment of these specific psychological disorders | | | | | |
| 3. | Developed advanced critical thinking skills in psychology, enabling you to: | 3.1. think critically about the distinction between mental disorders and normal variability in cognition and behaviour. 3.2. think critically about the reliability and validity of contemporary measures of psychological functioning 3.3. demonstrate high levels of oral and written expression | | | | | |

| 6. Graduate Attributes | | | | | |
|--|---|--|--|--|--|
| School of Psychology Graduate Attributes* | Level of Focus 0 = No focus 1 = Minimal 2 = Minor 3 = Major | Activities/Assessment | | | |
| 1. Core knowledge and understanding | 3 | Tutorial presentation; essay; mid-session test and final examination. | | | |
| 2. Research methods in psychology | 2 | Tutorial presentation; essay; mid-session test and final examination. | | | |
| 3. Critical thinking skills | 3 | Tutorial presentation; essay; mid-session test and final examination. | | | |
| 4. Values, research and professional ethics | 1 | Ongoing discussion of the ethical issues surrounding the classification, assessment and treatment of mental disorders. | | | |
| 5. Communication skills | 2 | Contribution to tutorial discussions; oral tutorial presentation | | | |
| 6. Learning and application of psychology | 3 | Tutorial presentation; essay; mid-session test and final examination. | | | |

7. Rationale for the Inclusion of Content and Teaching Approach

This course provides an overview of assessment, personality and psychopathology.

8. Teaching Strategies

To achieve the learning outcomes outlined above, you will need to attend bi-weekly lectures and weekly tutorials. Attendance is compulsory. Slides presented in the lectures will be made available after the lectures. Lectures will be taped, and recordings will be available via *Echo 360*.

The weekly two-hour tutorials will contain oral presentations of the tutorial readings for the week, followed by discussion of the readings and related issues. In addition, for many of the tutorials you will watch a video of a case example of a client with the disorder being discussed in class that week.

The prescribed textbook also provides a source of information and examples. The tutorials and the textbook will also assist you in fully achieving Learning Outcome 1 and 2 that requires you to develop openness and a questioning attitude.

The mid-session test (Week 7) will provide you with an opportunity to test your understanding of Learning Outcomes 1. The final exam is designed to assess Learning Outcomes 1 & 2.

_

^{*} The Graduate Attributes of the Australian Undergraduate Psychology Program was produced as part of the Carrick Associate Fellowship project, "Sustainable and evidence-based learning and teaching approaches to the undergraduate psychology curriculum", and "Designing a diverse and future-oriented vision for undergraduate psychology in Australia", a Discipline-based Initiative funded by the Carrick Institute for Learning and Teaching in Higher Education (see Appendix II), and supported by the Australian Psychological Society, and the University of New South Wales (School of Psychology; Learning and Teaching @UNSW).

| 9. Course Schedule | | | | | | |
|-------------------------|---|--|--|--|--|--|
| Week | Lecture Topic & Lecturer | Tutorial/Lab Content | Suggested Readings | | | |
| 1 July 28/30 | Tues: Introduction/Kimonis Thurs: Reliability & Validity/ Whitford | None | None | | | |
| 2 August 4/6 | Tues: Classification/ Whitford Thurs: Childhood Disorders/ Kimonis | None | None | | | |
| 3 August 11/13 | Tues: Psychological Therapies for Children/ Kimonis Thurs: Intelligence Assessment I/ Williams | Classification exercise | 1. Schwartz (Chapter 3, "What's in a name?") 2. Stein et al. (2010) | | | |
| 4 August 18/20 | Tues: Intelligence Assessment II/ Williams Thurs: Personality/ Whitford | Intelligence Tests | 1. Kaufman & Lichtenberger (Chapter 1 excerpt) 2. Wechsler (Chapter 1, "The Nature of Intelligence") | | | |
| 5 August 25/27 | Tues: Personality Disorders/ Kimonis Thurs: Psychopathy/ Kimonis | Psychopathy activity & videos | 1. Hare (1996) 2. Hare (1965) | | | |
| 6 September 1/3 | Tues & Thurs: Eating Disorders/ Vartanian | Eating disorder diagnosis activity | 1. Keel & Klump (2003) 2. Neumark-Sztainer (2005) | | | |
| 7 September 8/10 | Tues: Midsession test/Kimonis Thurs: Introduction to Anxiety/ Grisham | None | | | | |
| 8 September 15/17 | Tues: Panic Disorder, Specific Phobia/ Grisham Thurs: Generalised Anxiety Disorder, Social Anxiety/ Grisham | Behavioural experiments | 1. Wells et al. (1995) 2. Clark (1986) | | | |
| 9 September 22/24 | Tues: Obsessive Compulsive Disorder/ Grisham Thurs: Posttraumatic Stress Disorder/ Nickerson | OCD video | 1. Ehlers & Clark (2000) 2. Abramowitz et al. (2003) | | | |
| 10 October 6/8 | Tues: Depression/Nickerson Thurs: Bipolar/Whitford | None | | | | |
| 11 October 13/15 | Tues: Schizophrenia/ Whitford Thurs: Schizophrenia/Whitford | Bipolar video/Psychotic symptoms exercise & video | 1. Schwartz (Chapter 6, "A Season in hell") 2. Blakemore (2000) | | | |
| 12 October 20/22 | Tues & Thurs: Psychological Therapies for Adults/ Nickerson | Mindfulness exercise, wrap-up and exam preparation | 1. McGinn & Sanderson (2001) 2. Wilson (1996) | | | |

| | | Learning | | Graduate Dat | | | Feedback | |
|---|--------|----------------------|------------------------|---|---|-----|----------|------------|
| Assessment Task | Weight | Outcomes Assessed | Attributes Assessed | Release | Submission | Who | When | How |
| Attendance at tutorials is an essential course requirement; 80 percent attendance is required before marks are lost for non-attendance. Before each tutorial class every student must study the reading(s) set for that tutorial class. Copies of the readings are available on Moodle, online on the My Course link of the Library website and from My Course Reserve on level 2 of the Library. Each student will give a 10-minute oral presentation in one tutorial class, based on the set reading for that class. Video case presentations will also be used to illustrate the major clinical features of selected disorders. Students are expected to actively participate in discussions concerning the set readings and the video presentations. The class participation mark is based on attendance and participation in discussions (5 marks), and the presentation (10 marks). | 15% | | | Week 3 | Week 4 through Week 12 | | Week 12 | |
| Essay An essay assignment on a designated topic in psychopathology will be introduced in the tutorial in Week 4. The essay should not exceed 2000 words. Your essay is to be submitted by 4pm on Friday of Week 11 (16 th October) in hard copy to the lockbox on Mathews level 2, by the L2 lifts (under the directory sign when you walk into the Mathews building under a sign "School of Psychology assignments") as well as in electronic copy via Turnitin within Moodle. Essays submitted after this date will incur a late penalty of 2% per day, including weekends. Essays will not be accepted after October 30th and will receive a mark of 0. | 25% | | | Week 4 | Friday Week 11 | | | |
| Mid-session-test In the Wednesday lecture of Week 7 (10 th September), a multiple-choice test will be given in the lecture theatre. This test will cover material related to the lectures from weeks 1-6 (including tutorial readings from weeks 3-6 and related sections of the textbook). | 20% | | | Wednesday, Week 7 (8 th September) | Wednesday, Week 7 (8 th September) | | | |
| Final exam | 40% | | | ТВА | TBA | | | Final exam |

RECOMMENDED INTERNET SITES

You should be aware of policies regarding your behaviour at the university. Familiarize yourself with the following:

Student Code of Conduct

Policy concerning academic honesty

Email policy

UNSW Anti-racism policy statement

UNSW Equity and Diversity policy statement

12. Course Evaluation & Development

Courses are periodically reviewed and students' feedback is used to improve them. Feedback is gathered using various means including UNSW's Course and Teaching Evaluation and Improvement (CATEI) process.

13. Plagiarism & Academic Integrity

What is plagiarism?

Plagiarism is presenting someone else's thoughts or work as your own. It can take many forms, from not having appropriate academic referencing to deliberate cheating.

UNSW groups plagiarism into the following categories:

• **Copying:** using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

- Inappropriate paraphrasing: changing a few words and phrases while mostly retaining the original structure and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit. It also applies to piecing together quotes and paraphrases into a new whole, without referencing and a student's own analysis to bring the material together.
- **Collusion:** working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task, stealing or acquiring another person's academic work and copying it, offering to complete another person's work or seeking payment for completing academic work.
- **Duplication:** submitting your own work, in whole or in part, where it has previously been prepared or submitted for another assessment or course at UNSW or another university.

Where can I find out more information?

In many cases plagiarism is the result of inexperience about academic conventions. The University has resources and information to assist you to avoid plagiarism. The first place you can look is the section about referencing and plagiarism in each Course Guide, as this will also include information specific to the discipline the course is from. There are also other sources of assistance at UNSW:

How can the Learning Centre help me?

The Learning Centre assists students with understanding academic integrity and how to not plagiarise. Information is available on their website: http://www.lc.unsw.edu.au/academic-integrity-plagiarism. They also hold workshops and can help students one-on-one.

• How can Elise help me?

ELISE (Enabling Library & Information Skills for Everyone) is an online tutorial to help you understand how to find and use information for your assignments or research. It will help you to search databases, identify good quality information and write assignments. It will also help you understand plagiarism and how to avoid it. All undergraduate students have to review the ELISE tutorial in their first semester and complete quiz, but any student can review it to improve their knowledge: http://subjectguides.library.unsw.edu.au/elise.

What is Turnitin?

Turnitin is a checking database which reviews your work and compares it to an international collection of books, journals, Internet pages and other student's assignments. The database checks referencing and whether you have copied something from another student, resource, or off the Internet. Sometimes students submit their work into Turnitin when they hand it in, but academics can also use it to check a student's work when they are marking it. You can find out more about Turnitin here: https://teaching.unsw.edu.au/elearning.

What if plagiarism is found in my work?

If plagiarism is found in your work when you are in first year, your lecturer will offer you assistance to improve your academic skills. They may ask you to look at some online resources, attend the Learning Centre, or sometimes resubmit your work with the problem fixed. However more serious instances in first year, such as stealing another student's work or paying someone to do your work, may be investigated under the Student Misconduct Procedures.

Repeated plagiarism (even in first year), plagiarism after first year, or serious instances, may also be investigated under the Student Misconduct Procedures. The penalties under the procedures can include a reduction in marks, failing a course or for the most serious matters (like plagiarism in a honours thesis) even suspension from the university. The Student Misconduct Procedures are available here

https://www.gs.unsw.edu.au/policy/documents/studentmisconductprocedures.pdf

Examples of plagiarism

Using the internet appropriately

A first year student handed in an assignment where she had copied from a website. Her lecturer realised she didn't understand you have to reference websites in the same way you reference books and journal articles. The lecturer explained how to reference and sent her to a workshop at the Learning Centre to help her improve her skills.

Working together on a math assignment

A group of Mathematics students worked together on an assignment when they had been told this was not allowed. All questions where the students had worked together were given zero, and this lead to some student failing the assessment.

No referencing in an assessment

A third year student submitted a major assessment that included material from a journal article published in Canada. When his essay was submitted into Turnitin, it let the academic know that the student didn't reference the material. The student was given zero for the essay, and because it was worth 50 per cent he failed the course.

Copying design work

A final year design student used images of someone else's designs in her work and he said the designs were his own. The matter was formally investigated by his Faculty and he was found to have committed academic misconduct and failed the course.

Further information and assistance

If you would like further information or assistance with avoiding plagiarism, you can contact the Learning Centre. The Learning Centre at The University of New South Wales has two locations:

UNSW Learning Centre

Lower Ground Floor, North Wing, Chancellery Building (C22 Kensington Campus – near Student Central)

http://www.lc.unsw.edu.au/

Phone: 9385 2060

Email: <u>learningcentre@unsw.edu.au</u>

Opening Hours:

Monday to Thursday: 9am - 5pm and

Friday: 9am - 2.30pm

COFA Campus Learning Centre

Email: cofalearningcentre@unsw.edu.au

Phone: 9385 0739

14. Administrative Matters

The School of Psychology Student Guide, available on http://www.psy.unsw.edu.au/current-students/student-guide, contains School policies and procedures relevant for all students enrolled in undergraduate or Masters psychology courses, such as:

- Attendance requirements;
- Assignment submissions and returns;
- Assessments;
- Special consideration in the event of illness or misadventure;
- Student Code of Conduct;
- Student complaints and grievances;
- Student Equity and Disability Unit; and
- Occupational Health & Safety.

Students should familiarise themselves with the information contained in this Guide.
