NOTES

Students wishing to undertake a complementary major in Vision Science should be aware that it will not be possible to complete it along with a Psychology major within 144 units of credit. It will involve additional time and cost and will have visa implications for international students.

(i) A Vision Science major requires 90 UOC. However, 12 UOC must include PSYC3211 and PSYC3221 at Stage 3. The above Plan allows for double-counting of these psychology courses for both the Psychology and Vision Science majors.

(ii) PSYC3XXX represents a Level 3 Psychology elective. You must complete 6 UOC from the Level 3 Psychology STREAM B elective group listed below.
