EMAIL: j.kehoe@unsw.edu.au

SONA Enquiries
Linda Camilleri
Level 16, Mathews Building
PHONE: (02) 9385 3034
EMAIL: l.camilleri@unsw.edu.au

Grievance Officer
Associate Professor Jacquelyn Cranney
Room 911, Mathews Building
PHONE: (02) 9385 3527
EMAIL: j.cranney@unsw.edu.au
INFORMATION FOR COURSEWORK STUDENTS

This document contains School policies and procedures relevant for all students enrolled in undergraduate or Masters psychology courses. Please familiarise yourself with the information contained in this document.

TIMETABLES

The 2016 Class Timetable is available at:

http://www.timetable.unsw.edu.au/current/subjectSearch.html

UNDERGRADUATE ENROLMENT AND PROGRESSION

It is each student’s responsibility to ensure that you are following the rules of your degree program and that you are enrolled in appropriate courses for your program. We advise that you consult the University Handbook (http://www.handbook.unsw.edu.au) each semester to make sure that you are on track. You should refer to the edition for the year you commenced your degree program. For example, if you commenced your degree program in 2012, you should refer to the 2012 edition.

Program information can also be found on the School website at:

http://www.psy.unsw.edu.au/current-students/undergraduate/course-selection

Please note that it is your responsibility to make sure you are enrolled correctly by the enrolment deadline of Sunday, 6 March 2016 for Semester 1 and Sunday, 31 July 2015 for Semester 2. Beyond these deadlines it will not be possible to Add or Swap Courses for that semester.

How to Add, Drop and Swap Courses

See the Step-by-Step Guides: https://student.unsw.edu.au/enrol-guides

Swapping Tutorial times

To swap tutorial classes within a course, follow the Guide above for swapping a course and choose Swap next to the appropriate course, and Continue. You will see a list of available tutorial times. Tutorials that are full will not be visible and are not available. It is possible to change ONLY to a tutorial time that is available (one that has vacancies). The deadline for swapping tutorials is Sunday, 6 March 2016 for Semester 1 and Sunday, 31 July 2015 for Semester 2. It is not possible to swap your tutorial time beyond these deadlines.

TIMETABLE CLASHES

If you cannot enrol in a course due to a timetable clash, you should complete the Timetable Clash Approval form available at:

https://www.science.unsw.edu.au/current-students/forms

Without it, the School Office will not process any requests to override timetable clashes.

WITHDRAWING FROM A COURSE

You can drop courses via myUNSW until the last day of the Teaching Period (inclusive). The Teaching Period dates can be found on the Academic Calendar https://student.unsw.edu.au/calendar. There are implications for your financial liability and/or academic record, depending on the timing at which you drop a course.
On or before the Census Date

The Census Date, Thursday, 31 March 2016 for Semester 1 and Wednesday, 31 August 2016 for Semester 2, is the last day to drop a course without having to pay the tuition fee or HECS/FEE-HELP contribution.

If you drop a course on or before the Census Date:

- You will **not** be financially liable for the course.
- The course will **not** appear on your transcript.
- The course will **not** be included in the calculation of your Weighted Average Mark (WAM).
- The course will **not** be included in the calculation of your academic standing.

You can drop courses via myUNSW.

On or before the deadline to drop a course without academic penalty

The last day to drop a course without academic penalty is Sunday, 24 April 2016 for Semester 1 and Sunday 11 September 2016 for Semester 2.

If you drop a course on or before this deadline (but after the Census Date):

- You **will** be financially liable for the course.
- The course will **not** appear on your transcript.
- The course will **not** be included in the calculation of your WAM.
- The course will **not** be included in the calculation of your academic standing.

You can drop courses via myUNSW.

After the deadline to drop a course without academic penalty and on or before the last day of the Teaching Period

If you drop a course after the deadline to discontinue without academic penalty and on or before the last day of the Teaching Period:

- You **will** be financially liable for the course.
- The course **will** appear on your transcript with a grade of AW (Academic Withdrawal).
- The course will **not** be included in the calculation of your WAM.
- The course **will** be included in the calculation of your academic standing as units of credit attempted but not passed.

You can drop courses via myUNSW.

After the last day of the Teaching Period

You are no longer able to drop courses via myUNSW after the last day of the Teaching Period. You will be assigned the final mark and grade awarded to you by the School.
Special Circumstances

In defined special circumstances, you can apply for Fee Remission. If successful:

- You will not be financially liable for the course.
- The course will appear on your transcript with a grade of PW (Permitted Withdrawal).
- The course will not be included in the calculation of your WAM.
- The course will be included in the calculation of your academic standing as units of credit attempted but not passed.

Download the form and view further information at:

https://student.unsw.edu.au/withdrawal-procedure

ATTENDANCE

Attendance at lectures and tutorial/lab classes is a requirement of each course. Students are expected to attend at least 80% of lectures and classes in a course and be punctual in attendance at all lectures and classes. Some courses require 100% attendance. Check the Course Outline for attendance requirements specific to your course. Attendance is monitored for tutorials and labs, and may be monitored for lectures. You should make sure your name has been marked on the class roll for each class you attend.

Explanations for an occasional absence from a class or requests for permission to be absent from a class should be discussed with the lecturer/tutor, and where applicable, accompanied by a medical certificate.

MOODLE – ONLINE COURSE CONTENT

Most Psychology courses have an online component offered through Moodle, which can be accessed via myUNSW. Moodle modules are made available to students the week before the start of each Semester. Check with your Course Coordinator if your course is not listed on the Moodle site once the Semester has commenced.

COURSE ASSESSMENTS

Unless specifically identified as optional, all assessment tasks set for a course must be completed. Failure to do so will be recorded as "unsatisfactory class work", which may result in failure in a course. For each course, check the Course Outline and make sure you are clear about what assessments are required and the deadline for each.

ASSIGNMENTS

Submission

Students are required to submit an electronic copy of their assignment to the School via the Moodle site. In most cases, the electronic version of the assignment should be submitted through the Turnitin box on Moodle for plagiarism checking. Check your Course Outline for instruction regarding online submission.

The School takes no responsibility for assignments submitted in ways other than specified above. While individual Course Coordinators may occasionally arrange for assignments to be emailed to them, under no circumstances will assignments emailed or faxed to the School be accepted.

Late Penalty

Failure to meet the submission deadline will attract a penalty. For an assignment submitted late without acceptable reason but before other assignments are marked and returned, 2% of the maximum possible
mark will be deducted for each day (including weekend days) it is overdue. In determining whether or not an assignment is overdue, the date it was submitted online via Moodle will be used.

Once assignments are marked and returned to students, the School will accept no additional submission. Instead, an alternative assessment task may be set if appropriate. The deduction for lateness will still apply from the original submission deadline.

Request to waive late penalty:

Students are required to apply for Special Consideration through UNSW Student Central (see Special Consideration below). This is the procedure required by the School for assignments regardless of the weighting given to the piece of work. For an assignment worth less than 20% of the total mark for the course, we will not consider applications for Special Consideration to waive a late penalty unless there is evidence of these circumstances lasting for more than 3 consecutive days or a total of 5 days or more within the assessment period.

Assignments submitted late may not receive detailed feedback from markers.

If you are a SEADU-registered student, and your SEADU Letter of Support authorises extensions for assignment submission, you do not need to apply for Special Consideration through UNSW Student Central irrespective of the weight of the assignment. You are still required to contact your lecturer or tutor before the submission deadline to agree on the actual period of extension—unless the SEADU Letter specifically stipulates that you are not required to do so. If you do not comply with the responsibilities indicated in your letter from SEADU, you will not be granted the adjustments.

If your SEADU Letter does not include an authorisation for late submission, you are subject to the same rules that apply to non-SEADU students. See “Request to waive late penalty” above.

Assignment Return

Marked assignments will be returned either through tutorial/lab classes or through Moodle within four weeks of the submission due date.

EXAMINATIONS

Final Examinations

Final written examinations for each course will be held during the University examination period (Friday, 10 June 2016 to Monday, 27 June 2016 for Semester 1, and Friday, 4 November 2016 to Tuesday, 22 November 2016 for Semester 2). The University examination timetable is determined by the UNSW Student Administration & Records Office, not by the School. Examination timetables are published through myUNSW.

As students are not permitted to attend both the regular and the deferred examinations (see Deferred Examinations below), it is advisable not to attend the regular examination if you are sick on the day it is held. Instead, you should obtain a medical certificate to support your application for Special Consideration to sit a deferred exam. A formal application for Special Consideration must be submitted to UNSW Student Central within three working days of the exam.

Further Assessment (Deferred) Examinations

A deferred exam may be given to those students who were absent from the final examination due to illness or misadventure. Students who have not completed all assessment tasks for the course (excluding the final exam) will not be allowed to sit the deferred exam.

Deferred examination opportunity for each course will be offered only once. Deferred exams will be conducted from Monday, 11 July 2016 through Friday, 15 July 2016 for Semester 1 and from Monday, 5 December 2016 through Friday, 9 December 2016 for Semester 2. Students who are granted a deferred exam will be notified through their student email address only.
Students granted a deferred exam can expect the exam to be of the same degree of difficulty as the original. Deferred exam materials may be in a different format from the original (e.g., short answer instead of multiple choice questions, and oral examination instead of written examination). In addition, the original and deferred assessment materials may also differ in the specific content, although overall, both will be sampled from the same relevant course material. These principles will apply to both deferred final examination and alternative in-session assessments.

If you are a SEADU-registered student who is normally exempt from having to apply for Special Consideration, you will still be required to submit a Special Consideration request through UNSW Student Central before the School is able to consider you for a deferred exam. This Special Consideration request must be accompanied by supporting documentation, such as a medical certificate, covering the date of the relevant exam. In lieu of supporting documentation, you may attach a copy of an official letter from your SEADU Officer, which must clearly outline the reason why you were absent from the exam.

Special Arrangements for Final Examinations

The School is not able to make individual arrangements with students regarding the scheduling of final examinations. However, if you are unable to attend a final exam for religious reasons you should complete https://student.unsw.edu.au/sites/all/files/uploads/group47/forms/AlternativeExamReligiousReasons.pdf and return it to UNSW Examinations no later than one week after the publication of the final examination timetable.

Students with disabilities, in certain circumstances, may be eligible for alternative provisions for formal end of semester examinations (i.e., those run by UNSW Examinations). These provisions must be arranged with Student Equity and Disabilities, which will liaise with the Examinations Section (Student Management). If you believe you may need special provisions for final examinations, you should discuss your needs with an Equity Officer (Disability) in the Student Equity and Disabilities Unit (SEADU), Ground Floor, John Goodsell Building (Phone: 9385 4734).

SPECIAL CONSIDERATION

If you find that illness, misadventure, or other circumstances beyond your control prevent you from completing a course requirement or attending classes, or may significantly affect your performance in assessable work, you can apply for Special Consideration for the affected assessments.

Students wishing to apply for Special Consideration should do so within three working days of the assessable event. All applications must be made via Online Services in myUNSW. Log into myUNSW and go to My Student Profile tab > My Student Services > Online Services > Special Consideration. You will need to submit original documents to UNSW Student Central, in person, to support your online application. If your application is on the grounds of illness, the original documents should include a Professional Authority form which has been completed by a medical practitioner.

For further information and to download the Professional Authority form please go to: https://my.unsw.edu.au/student/academiclife/ProfessionalAuthority.pdf

Note that we will not consider applications for Special Consideration where the assessment is worth less than 20% of the total course assessment, unless there is evidence of these circumstances lasting for more than 3 consecutive days or a total of 5 days or more within the assessment period.

FINAL MARKS FOR A COURSE

Final marks for a course are calculated from the summation of component marks for a course (with weightings indicated in the Course Outline). Final marks for all courses are scaled to ensure consistency in assessment standards across different courses and examinations.
REVIEW OF RESULTS

A review of a Final Mark for a course may take one of two forms:

1. **Checking of marks** – an administrative check that all marks have been included in the final composite mark;
2. **Re-assessment** – an academic re-assessment of a piece of work.

Students may apply to have a piece of work re-marked, but must first discuss their performance with the Course Coordinator. If students still have reasons to believe that the mark they have received does not reflect their performance, they may apply for re-assessment. Students are required to give reasons to justify their request. Where insufficient reasons are given the School may decline to take action. Please note that if you request a reassessment of your result, this will include a check of the addition of marks. In either case the review may result in the mark going up or down.

The application form must be submitted no later than fifteen working days after the return of the piece of work or from the date of issue of the Notification of Results of Assessment, whichever is earlier. All marked work returned to students must be kept in case it is needed for re-marking. See [https://student.unsw.edu.au/results](https://student.unsw.edu.au/results) for further information.

COURSE EVALUATION AND DEVELOPMENT

Courses are periodically reviewed and students’ feedback is used to improve them. Feedback is gathered using various means, including UNSW’s Course and Teaching Evaluation and Improvement (CATEI) process.

INFORMATION REGARDING HONOURS

Students undertaking Honours in psychology conduct a major independent research project under the supervision of a member of the academic staff, and write a thesis based on the project. In addition, students undertake compulsory and elective coursework each semester.

An Honours year in psychology is required for entry to postgraduate psychology programs in Australian universities.

Minimum Entry Requirements

Students in degree programs that allow for completion of a psychology major (96 UoC for 3632 Psychology (Honours); 78 UoC for other degree programs commencing in 2015 or later) are eligible to apply for a place in the Honours program in psychology.

For students in 3632 and 3962 Advanced Science (Honours), the Honours program comprises Stage 4 of your degree. For students in 3435 Psychological Science, 3970 Science and other degree programs, the Honours program comprises a one-year degree program 4518 Psychological Science (Honours).

To gain entry to the Honours program in psychology, students are required to have achieved an average of 75% or higher of:

- Marks for **psychology core courses common to all psychology programs / plans** (see below); and
- The **three highest** of marks for all Level 3 psychology elective courses ever attempted.

The average is based on a student’s mark for the first attempt at courses—unless there were special circumstances which justify including the mark from the second attempt. In such cases, students should set out these circumstances in a letter to the Honours Coordinator at the time of application. Results for psychology courses completed by students whilst on exchange are not included in the average.
The psychology core courses are as follows:

**Level 1**
- PSYC1001 Psychology 1A
- PSYC1011 Psychology 1B
- PSYC1111 Measuring Mind and Behaviour

**Level 2**
- PSYC2001 Research Methods 2
- PSYC2061 Social and Developmental Psychology
- PSYC2071 Perception and Cognition
- PSYC2081 Learning and Physiological Psychology
- PSYC2101 Assessment, Personality and Psychopathology

**Level 3**
- PSYC3001 Research Methods 3
- PSYC3011 Research and Applications of Psychology

**How to Apply**

In Semester 2 each year, a meeting is organised by the School for all third-year students who intend to undertake a Fourth Year in psychology. The meeting time and location will be advertised via Level 3 psychology Moodle sites. At this meeting information is provided regarding the Honours program, supervisors and their research interests. If you wish to apply for Honours in 2017, it is important that you attend this meeting as you will be given an application form which requires you to nominate your preference for supervisor and research area. Students will be notified in December of the outcome of their application.

**STUDENT CODE OF CONDUCT**

The University is committed to the pursuit of excellence in learning, teaching and research, and to community engagement. The Student Code of Conduct sets out the University’s expectations of students with respect to their academic and personal conduct and outlines the University’s responsibilities to students.

Students are expected to familiarise themselves with the Student Conduct Policy, which incorporates the Student Code of Conduct, and the Student Misconduct Procedures. They are available at:

https://student.unsw.edu.au/conduct

**PLAGIARISM: ESSENTIAL INFORMATION FOR AVOIDING PLAGIARISM**

**What is plagiarism?**

Plagiarism is presenting someone else’s thoughts or work as your own. It can take many forms, from not having appropriate academic referencing to deliberate cheating.

UNSW groups plagiarism into the following categories:* 

- **Copying:** Using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This includes copying materials, ideas or concepts from a book, article, report or other written document, presentation, composition, artwork, design, drawing, circuitry, computer program or software, website, internet, other electronic resource, or another person's assignment, without appropriate acknowledgement.

---

• **Inappropriate paraphrasing**: Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another’s ideas or words without credit and to piecing together quotes and paraphrases into a new whole, without appropriate referencing.

• **Collusion**: Presenting work as independent work when it has been produced in whole or part in collusion with other people. Collusion includes students providing their work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to perform an academic task and passing it off as your own, stealing or acquiring another person’s academic work and copying it, offering to complete another person’s work or seeking payment for completing academic work. This should not be confused with academic collaboration.

• **Inappropriate citation**: Citing sources which have not been read, without acknowledging the “secondary” source from which knowledge of them has been obtained.

• **Self-plagiarism**: “Self-plagiarism” occurs where an author republishes their own previously written work and presents it as new findings without referencing the earlier work, either in its entirety or partially. Self-plagiarism is also referred to as “recycling”, “duplication”, or “multiple submissions of research findings” without disclosure. In the student context, self-plagiarism includes re-using parts of, or all of, a body of work that has already been submitted for assessment without proper citation.

**Where can I find out more information?**

In many cases plagiarism is the result of inexperience about academic conventions. The University has resources and information to assist you to avoid plagiarism. The first place you can look is the section about referencing and plagiarism in each Course Outline, as this will also include information specific to the discipline the course is from. There are also other sources of assistance at UNSW:

**How can the Learning Centre help me?**

The Learning Centre assists students with understanding academic integrity and how to not plagiarise. Information is available on their website: [https://student.unsw.edu.au/plagiarism](https://student.unsw.edu.au/plagiarism). They also hold workshops and can help students one-on-one.

**How can ELISE help me?**

ELISE (Enabling Library & Information Skills for Everyone) is an online tutorial to help you understand how to find and use information for your assignments or research. It will help you to search databases, how to identify good quality information and how to write assignments. It will also help you understand plagiarism and how to avoid it. All undergraduate students are required to review the ELISE tutorial in their first semester and complete the quiz, but any student can review it to improve their knowledge: [http://subjectguides.library.unsw.edu.au/elise](http://subjectguides.library.unsw.edu.au/elise)

**What is Turnitin?**

Turnitin is a checking database which reviews your work and compares it to an international collection of books, journals, Internet pages and other students’ assignments. The database checks referencing and whether you have copied something from another student, resource, or off the Internet. Oftentimes, students are asked to submit an electronic version of their work into Turnitin, but academics can also use it to check a student's work when it is being marked. You can find out more about Turnitin here: [https://teaching.unsw.edu.au/turnitin](https://teaching.unsw.edu.au/turnitin)
What if plagiarism is found in my work?

If plagiarism is found in your work when you are in first year, your lecturer will offer you assistance to improve your academic skills. They may ask you to look at some online resources, attend the Learning Centre, or sometimes resubmit your work with the problem fixed. However more serious instances in first year, such as stealing another student’s work or paying someone to do your work, may be investigated under the Student Misconduct Procedures.

Repeated plagiarism (even in first year), plagiarism after first year, or serious instances, may also be investigated under the Student Misconduct Procedures. The penalties under the procedures can include a reduction in marks, failing a course or for the most serious matters (such as plagiarism in an honours thesis) can result in suspension from the University.

Important Notes on File-sharing Websites

There are some file-sharing websites around that specialise in buying and selling academic work to and from university students. Examples of such websites include but are not limited to:

- Course Hero;
- Nexus Notes;
- StudyMode; and
- Thinkswap.

You should be aware that you would be committing plagiarism if you download a piece of work from these websites and present it as your own either wholly or partially.

If you upload your original work to these websites, and if another student downloads and presents it as their own either wholly or partially, you might be found guilty of collusion—even years after graduation.

Your work may be posted by others unbeknownst to you. The surest way to avoid putting yourself at risk is to take care to not share your work with another student. If you stumble across your work online, the School of Psychology recommends you take action to have it removed at the earliest opportunity.

These file-sharing websites may also accept for purchase course materials, such as copies of lecture slides and tutorial handouts. By law, the copyright on course materials, developed by UNSW staff in the course of their employment, belongs to UNSW. It constitutes copyright infringement, if not plagiarism, to trade these materials.

STUDENT COMPLAINTS AND GRIEVANCES

The School is committed to the University policy of “providing a fulfilling and rewarding learning and research experience that enables students to achieve their full academic potential”, and will seriously listen to complaints and resolve them quickly if possible. The resolution procedures ensure that students are able to air legitimate complaints, knowing that ad hoc, vindictive or arbitrary action will not be taken against them or the staff complained about.”

If students have a grievance they should first attempt to resolve it with the staff member concerned. If that fails, the next step is to take the matter to the course or level coordinator within a reasonable period of time. Beyond this, the next step is to take the matter to the School Grievance Officer (see “School Contacts” above) and then to the Head of School.

If the matter is still not resolved, then you can seek advice about your options from the Student Conduct and Appeals Officer, in the Office of the Pro Vice-Chancellor (Students) and Registrar (Phone: 9385 8515; Email: studentcomplaints@unsw.edu.au).
The full University complaint policy can be found on:

https://student.unsw.edu.au/complaints

STUDENT EQUITY AND DISABILITIES UNIT

Students who have a disability that requires some adjustment in their learning and teaching environment are encouraged to discuss their study needs with the Course Coordinator prior to or at the commencement of the course, or with the Student Equity Officers (Disability) in the Student Equity and Disabilities Unit (9385 4734). Information for students with disabilities is available at:

http://www.studentequity.unsw.edu.au/

Issues to be discussed may include access to materials, signers or note-takers, the provision of services and additional examination and assessment arrangements. Early notification is essential to enable any necessary adjustments to be made.

HEALTH & SAFETY FOR STUDENTS

UNSW is a leading Australian University with a diverse range of research, teaching programs and centres of excellence, covering a multitude of disciplines and research areas. Health and safety is intrinsic to the way we do business at UNSW. Our overall aim is “Harm to Zero”, with the expectation that all persons shall come to no harm while in the workplace.

The following values form the basis of achieving our aim of “Harm to Zero”:

- People are our most valuable asset, and we are all committed to ensuring the health, safety and wellbeing of everyone in the workplace.
- Everyone has a responsibility for safety, their own and others.
- Injuries can be prevented, and an incident-free working and learning environment is actively pursued.
- Communication and consultation are central to working together for a safer workplace.

For all matters relating to Health and Safety, see http://safety.unsw.edu.au/

Hazard & Incident Reporting

Students enrolled in Psychology courses are required to report any hazards or incidents in two ways:

1. Using the https://safety.unsw.edu.au/reporting-hazards-incidents via myUNSW; and then
2. Emailing John Bolzan, the School of Psychology Health & Safety representative, with details of the hazards or incidents.

You must report hazards or incidents using both methods.

Mandatory Health & Safety Training

Completion of an online health & safety awareness course is mandatory for Honours and postgraduate students. Those requiring laboratory work as part of their study may also be required to undertake a laboratory safety course. See https://safety.unsw.edu.au/reporting-hazards-incidents for further information.

If you fail to complete mandatory health and safety training:

- Panel meetings may not be convened for Honours students.
- Postgraduate coursework/research students may not be permitted to enrol.
- Those requiring laboratory work as part of their study may be denied access to labs.
A Safe Campus

Student safety and the security of personal property is a high priority at UNSW. Personal safety on campus is something UNSW wants students to be aware of. UNSW encourage students to act positively and responsibly to enhance their own safety. Safety on campus is managed by UNSW Security Services who are dedicated to providing a safe campus for the whole community.

UNSW is a large institution and includes a number of campuses. Each campus has a local security focus so it is important to find out what the safety procedures are at each location. Visit the UNSW Student Life website https://student.unsw.edu.au/security for further information.

USE OF SCHOOL COMPUTING FACILITIES

The following is a summary of computer-related information for all undergraduate and postgraduate students.

Accounts

In most cases, psychology computer accounts will be available from Week 2 of each semester. Fourth-Year accounts are available in early February.

Only students in the following Programs/Courses are given their own psychology accounts:

- Bachelor of Psychology
- Bachelor of Psychological Science
- Honours
- Master of Psychology (Clinical, Forensic and Organisational)
- PSYC2001 (Semester 1 only)
- All Level 3 courses

Please note that due to limited School resources it is not possible to create psychology computing accounts for all students taking psychology courses (whether as part of a major or not). Only those students who fall into one or more of the categories above will be issued a psychology account.

Passwords and Technical Difficulties

All passwords will be reset at the beginning of each semester, and notices posted on lab doors explaining this.

Psychology accounts are administered by the School of Psychology's Technical Support Unit (TSU) located in Room 138 of the Mathews Building, and not by the University's central IT unit. Your psychology account is not the same as your zID-zPass account. Students having difficulties with their psychology accounts should contact the TSU (Phone: 9385 3139).

Access Hours

The following access hours/rules will apply:

**Absolutely no food or drinks permitted in computer labs**

**Print Quotas**

The following initial quotas will be assigned:

- 350 pages for Honours and Master of Psychology students.
- 250 pages for all other students.

Students can top-up their print quotas by bringing a ream of A4 paper (500 sheets) to the TSU. They will receive credit for 150 pages. This credit system takes into account the major cost factor associated with laboratory printing which is the toner and printer itself rather than paper. Only one top-up per semester is generally allowed with the exception of Honours and Master of Psychology students.

**Rules**

While at UNSW, students are responsible for ensuring that their use of the University's information and computing technology (ICT) facilities is ethical and lawful. By using any of the School computing facilities, students acknowledge that they have read and will abide by the University rules relating to student use of computing and electronic communications facilities. The full version is available at [https://www.it.unsw.edu.au/students/policies/index.html](https://www.it.unsw.edu.au/students/policies/index.html).

Users of computing and communications facilities must be aware that use of these facilities is subject to the full range of State and Federal laws that apply to communications and to the use of computers, as well as any other relevant laws. This includes copyright, breach of confidence, defamation, privacy, contempt of court, harassment, vilification and anti-discrimination legislation, the creation of contractual obligations, and criminal laws.

**Examples of Inappropriate Use**

Examples of inappropriate use include (but are not limited to):

- Making/using illegal copies of a licensed computer program;
- Downloading, copying, storing or transmitting copyrighted material such as music, graphic, video or movie files without the express permission of the copyright holder or as permitted by law;
- Using another’s login or password, or allowing others to use yours;
- Gaining unauthorised access to systems by any means, including port scans, ‘hacking’ and use of ‘password sniffer’ software;
- Using UNSW ICT resources to attack or compromise any other system, whether on or off-campus, including circumventing system security or protection measures;
• Knowingly propagating or installing computer viruses or malicious code;
• Accessing or intercepting others’ electronic communications without permission;
• Creating/sending email under another’s name (forgery); creating/sending/forwarding electronic chain letters, unsolicited broadcast emails (‘Spam’), obscene, abusive, fraudulent, threatening or repetitive messages;
• Using ICT resources to harass, threaten, defame, vilify or discriminate against any group or individual;
• Causing intentional or irresponsible damage to ICT resources, or stealing equipment;
• Making excessive personal use of ICT resources; and
• Deliberately or negligently accessing, preparing, storing, displaying or transmitting of material that: is obscene, pornographic or paedophilic; is used to harass, threaten, defame, vilify or discriminate against any group or individual; promotes illegal acts, or that advocates violence; is offensive or potentially unlawful; or promotes/allows online gambling - unless this material is a requisite component of an approved course of study or research program.

Penalties for Breaching Conditions of Use

Penalties will depend upon the type and severity of breach. The School of Psychology reserves the right to suspend the psychology account privileges of any student found in breach of the UNSW Information Technology policies. In addition, penalties may range from loss or restriction of ICT access to formal University disciplinary action for breach of the UNSW Information Technology policies. Misuse of ICT resources by students may attract financial penalties. Cases of serious, deliberate, and/or criminal breach will be referred to external authorities and may result in civil or criminal proceedings.
