

Course Outline

PSYC3301

Psychology and Law

School of Psychology

Faculty of Science

T2, 2019

1. Staff

Position	Name	Email	Consultation times and locations	Contact Details
Course Convenor	Prof. Richard Kemp	richard.kemp@unsw.edu.au	By appointment Mathews 1005	Email
Lecturer				
Tutor				

2. Course information

Units of credit:	6
Pre-requisite(s):	PSYC2001 and PSYC2061. Note: PSYC2061 may be taken as a co-requisite.
Teaching times and locations:	PSYC3301 Timetable

2.1 Course summary

This course provides an introduction and broad overview to the discipline of Forensic Psychology. You will be introduced to a wide range of topics in forensic psychology, covering both criminal and civil law. Topics include jury decision making, eyewitness memory, criminal profiling, children and the courts, victims and offenders, policing, and the treatment and rehabilitation of offenders. The course will draw on cognitive, social and clinical psychological research. The goal is to demonstrate how psychological research can help us to understand and reform all aspects of the legal process. In addition to providing an introduction to Forensic Psychology, the course may offer a useful foundation for students interested in further study of forensic psychology at the Masters, Doctoral or PhD level.

Some of the topics covered in this course are also introduced in the level 1 course, PSYC1027 Forensic Psychology: Crime, Courts and Corrections. These common topics are covered in greater depth in PSYC3301, and additional topics are introduced. PSYC1027 is not a prerequisite for this course.

2.2 Course aims

This course aims to provide an introduction and broad overview to the discipline of psychology and law. You will be introduced to a wide range of psychological issues related to aspects of both civil and criminal law. The topics covered will draw on psychological research from various branches of the discipline including cognitive, social, developmental and clinical psychology. The second aim is to encourage an evidence-based approach to the study of topics involving the application of psychological knowledge to legal issues, and to demonstrate how psychological research can help us to understand and reform all aspects of the legal process

2.3 Course learning outcomes (CLO)

At the successful completion of this course the student should be able to:

1. Apply cognitive, social and clinical psychological theories to a range of legal issues.
2. Critically evaluate and apply psychological research findings to legal or policy problems.
3. Show an advanced understanding of the nature and limitations of applied psychological research.
4. Create reports for legal professionals which summarise relevant psychological research and provide relevant recommendations to legal problems based on that research.
5. Investigate how psychology can be applied within a correctional environment to assess offenders, develop treatments to reduce offending, and assess intervention efficacy.

DRAFT

2.4 Relationship between course and program learning outcomes and assessments

Program Learning Outcomes							
CLO	1. Knowledge	2. Research Methods	3. Critical Thinking Skills	4. Values and Ethics	5. Communication, Interpersonal and Teamwork	6. Application	Assessment
1.	Lectures, labs, readings, online modules, quizzes					Lectures, labs, readings, online modules, quizzes	Mid-term exam, Report, Media presentation, Final exam
2.		Lectures, labs, readings, online modules, quizzes	Lectures, labs, readings, online modules, quizzes				Mid-term exam, Report, Media presentation, Final exam
3.	Lectures, labs, readings, online modules, quizzes	Lectures, labs, readings, online modules, quizzes	Lectures, labs, readings, online modules, quizzes				Mid-term exam, Report, Media presentation, Final exam
4.				Lectures, labs, readings, online modules, quizzes	Lectures, labs, readings, online modules, quizzes		Report, Media presentation
5.	Lectures, labs, readings, online modules, quizzes					Lectures, labs, readings, online modules, quizzes	Mid-term exam, Report, Media presentation, Final exam

3. Strategies and approaches to learning

3.1 Learning and teaching activities

The design of the structure, content and assessment of this course has been informed by the policy document “Guidelines on learning that inform teaching at UNSW” (see <https://teaching.unsw.edu.au/guidelines>). In particular, lectures and lab classes are designed to encourage active, challenging and enjoyable learning which builds on learning that has occurred in other psychology courses and is relevant to the range of students’ likely future careers. The teaching employs a variety of different methods and encourages students to take responsibility for their own learning and to work cooperatively. Use is made of web based materials and assessments have been designed to reflect the learning outcomes and structure of the course.

Each week two, lectures (either “live” or recorded and available online) each week will be used to provide students with an introduction to a broad range of topics within the field of psychology and law. Within these topic areas the lectures will cover current theory, research methods, findings and the application of these findings to the legal process. Some of these topics will be supplemented with additional online modules and resources

The laboratory classes are designed to allow opportunities for in-depth and active learning. The sessions will be used to demonstrate and explore some of the issues covered in the lectures and opportunities will be provided to explore the methods used in forensic research, to take part in practical demonstrations, to debate issues and case studies and to participate in roleplays.

To develop students’ critical thinking, they will be asked to monitor media reports for relevant psycho-legal issues and to present to their lab class one such issue along with the empirical research relevant to this topic.

The lectures will draw on topics covered in the textbook and additional readings. You should read the relevant chapter or reading before attending the lecture so that you come with an understanding of the broad issues. This understanding will provide a conceptual framework and allow you to draw greatest benefit from the lecture. Before each Laboratory class read over your lecture notes (if applicable) and re-read the textbook chapters so that you can seek clarification where you require it. Look out for debate in the news media concerning legal and policy issues. Think about how psychological knowledge and research could inform this debate. In some cases the lecturer will identify specific reading but on other occasions you will be expected to use the library, research databases and other sources including the Internet to locate relevant material. The ability to locate relevant materials is a valuable skill that will be practiced and developed during this course.

Formative topic revision quizzes are available for students that provide an opportunity to evaluate understanding of course material on a weekly basis. Timely completion of the weekly quizzes will assist students in gaining a proper understanding of each topic so that this knowledge can be built on in future content.

3.2 Expectations of students

It is expected that students are aware of UNSW Assessment policy and understand how to apply for special consideration if they are unable to complete an assignment/exam due to illness and/or misadventure.

It is expected that students have read through the School of Psychology Student Guide.

Attendance at face to face tutorials and timely completion of online tutorials is essential in accordance with UNSW Assessment Implementation Procedure. Attendance at Laboratory classes is compulsory and will be monitored. Students must attend the assigned lab class.

All news updates and announcements will be made on the 'Announcements' forum on the Moodle page and/or by email. It is the student's responsibility to check Moodle and their student emails regularly to keep up to date. Although this is an online course, it is expected that students dedicate the same amount of time each week to studying for this course as they would for an 'on-campus' course.

The final exam for this course will take place on campus during the UNSW examinations period. Students should not arrange travel during the UNSW exam period until the date of the final exam has been released. Students who arrange travel prior to the release of the final exam date will not be granted consideration in the event they are scheduled to be out of country when the final exam is to occur. This is especially important for study abroad students – do not arrange travel home until the final exam date has been released.

Students registered with Disability Support Services must contact the course co-ordinator immediately if they intend to request any special arrangements for later in the course, or if any special arrangements need to be made regarding access to the course material. Letters of support must be emailed to the course coordinator as soon as they are made available.

DRAFT

4. Course schedule and structure

Each week this course typically consists of 2 hours of lecture material, 2 hours of face to face tutorials, and 1 hours of online modules. Students are expected to take an additional 5-7 hours each week of self-determined study to complete assessments, readings, and exam preparation.

Week	Lecture topic/s	Tutorial/lab topics	Online modules	Self-determined activities
Week 1 03/06/2019	Introduction to the course What is Forensic Psychology	Introduction to course. Media Presentations explained. Assignment to teams.	A psychologists guide to the Australian Legal system	Read relevant chapter of text. Review lecture notes. Review assessment requirements
Week 2 10/06/2019	Profiling False Confession	Detection of Deception	Real case examples of False confession	Read relevant chapter of text. Review lecture notes.
Week 3 17/06/2019	Detection of Deception 1 Detection of Deception 2	Profiling	Recent advances in the detection of deception	Read relevant chapter of text. Review lecture notes.
Week 4 24/06/2019	Juries and jury decision making 1 Juries and jury decision making 2	Jury deliberation	When juries go bad	Read relevant chapter of text. Review lecture notes.
Week 5 01/07/2019	The psychology of terrorists and terrorism Mid term exam	N/A	N/A	Read relevant chapter of text. Review lecture notes.
Week 6 08/07/2019	Forensic Evidence Expert evidence	N/A	The Crisis in Forensic Science	Read relevant chapter of text. Review lecture notes.
Week 7 15/07/2019	Mental Illness and Crime Child Protection	Witness interviewing	NSW Child protection policies	Read relevant chapter of text. Review lecture notes.

Week 8 22/07/2019	Eyewitness memory 1 Eyewitness memory 2	Identification procedures	False memories in research and in case law. Fake news! Misinformation in the "post-truth" era.	Read relevant chapter of text. Review lecture notes.
Week 9 29/07/2019	Identification evidence 1 The nature of offenders (including sex offenders)	Research Ethics Exam feedback	Innocent! Some real cases of erroneous conviction Eyewitness interviewing	Read relevant chapter of text. Review lecture notes.
Week 10 05/08/2019	Effective Prison and the Treatment of offenders Risk Assessment and Psychological Assessment for the courts	Assessment and treatment of offenders	Public attitudes to offenders Concluding thoughts Careers in Forensic Psychology	Read relevant chapter of text. Review lecture notes.
Study period 13/08/2019	N/A	N/A	N/A	Exam preparation
Exam period 16/08/2019	N/A	N/A	N/A	Exam preparation

5. Assessment

5.1 Assessment tasks

All assessments in this course have been designed and implemented in accordance with UNSW Assessment Policy.

Assessment task	Length	Weight	Mark	Due date
Assessment 1: Mid-term exam	1 hour	20%	/100	
Assessment 2: Psych-legal report	2000 words	30%	/100	
Assessment 3: Media presentation	10 mins	20%	/100	
Assessment 4: Final exam	2 Hours	30%	/100	Exam period

Examinations: There will be two examinations – a mid-term exam and a final exam. These exams will include multiple choice and extended answer questions. The final exam will not be cumulative – that is topics covered before the mid-term exam will only be examined in the mid-term exam, and the final exam will only assess topics covered after the midterm exam. Assessed material includes the contents of the lectures, the related textbook chapters or any other assigned readings and online modules, and the material from related lab classes. The midterm exam will be 1 hour and the final exam 2 hours in duration. The mid-term exam will take place during week 5 at the times of one of the two lectures and **at locations to be announced**. It is your responsibility to ensure that you are aware of the time and location of the exam and that you are able to attend. The final exam will take place during the University Examination period. It is your responsibility to ensure that you know where and when the exams will occur. Both the mid-term and final exams consist of multiple-choice questions and extended answer questions. The multiple-choice questions assess students' understanding of the topics covered. The extended answer question will assess students' ability to critically evaluate scientific evidence and to construct coherent, logical arguments using that evidence. Although past students have told us that they prefer to have a mid-term exam, there is a tendency to under-perform in the mid-term exam relative to the final exam. We strongly advise you to treat the mid-term exam as you would a final exam, and allow sufficient time to study for the exam.

Assessment 2: Psycho-legal report. Each student must submit an original report of **no more than** 2,000 words in length prepared in accordance with the APA publication manual (6th edition). The report should summarise and evaluate psychological research relevant to the specified issue or problem set in a form that would be useful to a particular target audience of researchers, policy makers or practitioners working within this field. A choice of three topic areas and target audiences will be provided. The report must not exceed 2,000 words (including all text other than the reference section and any appendices). Reports over this length may be penalised. Students must include an accurate word count at the end of the main body of their report. The assessment criteria for this assessment will be provided along with the topics. Students must read the assessment criteria and accompanying guidance before preparing the report as a particular format of report may be required. Reports must be submitted on Turnitin on the Moodle site by the due date indicated above.

Assessment 3: Media Presentation. Students will work in pairs to prepare and deliver a 10 minute presentation during one of the lab classes. The presentation will be based on a current Australian psycho-legal issue reported in the Australian media during the preceding two weeks. Students will present their report during one of the lab classes (as assigned by the tutor) and will lead a short discussion of the topic and its implications for psychological research and practice and the development of policy. Students are required to prepare three questions to help stimulate discussion. A copy of the presentation must be handed to the lab tutor immediately before the presentation. Students should append a copy of the media article to their presentation. This assignment will encourage students to think widely about psycho-legal issues and help form a better understanding of the ways in which psychological knowledge and research can be applied to legal and policy questions. The presentation will be assessed by other members of the lab class with the tutor moderating the suggested grade if necessary. The presentations will be marked against a set of clearly defined criteria that will be provided on the Moodle site. The presentation will contribute 15% of the final mark for the course. Each student will be allocated a submission date before their first lab class. The assessment criteria used to assess the presentations, some tips for making good presentations and the rules about failure to present due to illness, will be made available via the Moodle site.

1. Your presentation must take a maximum of 10 minutes (excluding questions). Students may be penalised for presentations which significantly deviate from 10 minutes duration.
2. Data projectors will be available in rooms, but it is each student's responsibility to ensure that their computer is compatible with the data projector or that their presentation is compatible with the classroom computer. No allowance will be made for technical issues resulting from a failure to check this.
3. This is a group assignment. Students will be assigned to teams of two or three members and must deliver a group report and presentation. .

In addition, each student will provide feedback on the other students' presentations. They will be awarded up to 5% based on the quality of the feedback they provide. Written feedback should be brief, and informative. Further guidance on providing feedback will be given in the lab classes.

Students must give their presentation on the date assigned by their tutor. Failure to do so will result in a fail for this assignment and a mark of zero. No alternative date will be offered. The only exception to this relates to periods of illness of 3 days or more covered by medical certificates. See the documentation on the Moodle site for further details regarding illness and the media Presentation.

UNSW grading system: <https://student.unsw.edu.au/grades>

UNSW assessment policy: <https://student.unsw.edu.au/assessment>

5.2 Assessment criteria and standards

Further details and marking criteria for each assessment will be provided to students closer to the assessment release date (see 4.1: UNSW Assessment Design Procedure).

5.3 Submission of assessment tasks

Written assessments: In accordance with UNSW Assessment Policy written pieces of assessment must be submitted online via Turnitin. No paper or emailed copies will be accepted.

Late penalties: deduction of marks for late submissions will be in accordance with School policy (see: [Psychology Student Guide](#)).

Special Consideration: Students who are unable to complete an assessment task by the assigned due date can apply for special consideration. Special consideration applications must be submitted to Student Central within 3 working days of the assessment due date along with a physical copy of the supporting documentation. Students who have experienced significant illness or misadventure during the assessment period may be eligible. Only circumstances deemed to be outside of the student's control are eligible for special consideration (see - <https://student.unsw.edu.au/special-consideration>). In the case of take-home assessment tasks, misadventure must occur for at least 3 consecutive days during the assessment period. If approved, students may be given an extended due date to complete take-home assessments, or an alternative assessment may be set.

Alternative assessments: will be subject to approval and implemented in accordance with UNSW Assessment Implementation Procedure.

Supplementary examinations: will be made available for students with approved special consideration application and implemented in accordance with UNSW Assessment Policy.

5.4. Feedback on assessment

Feedback on all pieces of assessment in this course will be provided in accordance with UNSW Assessment Policy.

Assessment	When	Who	Where	How
Mid-term exam	10 days from due date	Kemp/Tutor	Online/on campus	Moodle/verbal
Psych-legal report	10 days from due date	Marker	Online	Moodle
Media presentation	10 days from due date	Tutor/Peers	Online	Email
Final exam	N/A	N/A	N/A	N/A

6. Academic integrity, referencing and plagiarism

The APA (6th edition) referencing style is to be adopted in this course. Students should consult the publication manual itself (rather than third party interpretations of it) in order to properly adhere to APA style conventions. Students do not need to purchase a copy of the manual, it is available in the library or online. This resource is used by assessment markers and should be the only resource used by students to ensure they adopt this style appropriately:

[APA 6th edition.](#)

Referencing is a way of acknowledging the sources of information that you use to research your assignments. You need to provide a reference whenever you draw on someone else's words, ideas or research. Not referencing other people's work can constitute plagiarism.

Further information about referencing styles can be located at <https://student.unsw.edu.au/referencing>

Academic integrity is fundamental to success at university. Academic integrity can be defined as a commitment to six fundamental values in academic pursuits: honesty, trust, fairness, respect, responsibility and courage.¹ At UNSW, this means that your work must be your own, and others' ideas should be appropriately acknowledged. If you don't follow these rules, plagiarism may be detected in your work.

¹ International Center for Academic Integrity, 'The Fundamental Values of Academic Integrity', T. Fishman (ed), Clemson University, 2013.

Further information about academic integrity and **plagiarism** can be located at:

- The *Current Students* site <https://student.unsw.edu.au/plagiarism>, and
- The *ELISE* training site <http://subjectguides.library.unsw.edu.au/elise/presenting>

The *Conduct and Integrity Unit* provides further resources to assist you to understand your conduct obligations as a student: <https://student.unsw.edu.au/conduct>.

7. Readings and resources

<p>Textbook</p>	<p>Howitt, D (2015) Introduction to Forensic and Criminal Psychology (5th Edition). Harlow: Pearson Education</p> <p>We have selected this as the textbook for this course and will be making reference to this text throughout the course. Students are strongly recommended to obtain a copy as early as possible. Copies are available from the UNSW bookshop (cost \$77) or online. Please note that we are using the 5th edition of the text. You may be able to obtain second-hand copies of earlier editions which will provide reasonable coverage of most topics.</p> <p>Other texts to consider</p> <p>Nolan, M., and Goodman-Delahunty, J. (2015). Legal psychology in Australia. Thompson Reuters</p> <p>This is a relatively new text, and unusually one which particularly focuses on forensic psychology in Australia. Its coverage of topics in this course is quite good.</p>
<p>Course information</p>	<p>Available on Moodle</p>
<p>Required readings</p>	<p>School of Psychology Student Guide.</p>
<p>Other media</p>	<p>Radio: The radio program, "The Law Report", broadcast on ABC Radio National each Tuesday at 5.30pm (repeated Wed 5.30am and Thurs 11:00am) often covers relevant legal issues. Past programmes are available for download from the ABC Radio National website (www.abc.net.au/radionational/programs/lawreport/). In addition the Radio National programs "Background Briefing" and "All in the Mind" are sometimes relevant.</p> <p>Newspapers: The Media Presentation assessment requires you to locate relevant stories in current media. "The Sydney Morning Herald" (either in print or online) is particularly recommended for this, as is "The Australian".</p>
<p>Recommended internet sites</p>	<p>UNSW Library</p> <p>UNSW Learning Centre</p> <p>ELISE</p> <p>Turnitin</p> <p>Student Code of Conduct</p> <p>Policy concerning academic honesty</p> <p>Email policy</p> <p>UNSW Anti-racism policy statement</p> <p>UNSW Equity and Diversity policy statement</p> <p>UNSW Equal opportunity in education policy statement</p>

8. Administrative matters

The [School of Psychology Student Guide](#) contains School policies and procedures relevant for all students enrolled in undergraduate or Masters psychology courses, such as:

- Attendance requirements
- Assignment submissions and returns
- Assessments
- Special consideration
- Student code of conduct
- Student complaints and grievances
- Disability Support Services
- Health and safety

It is expected that students familiarise themselves with the information contained in this guide.

9. Additional support for students

- The Current Students Gateway: <https://student.unsw.edu.au/>
- Academic Skills and Support: <https://student.unsw.edu.au/academic-skills>
- Student Wellbeing, Health and Safety: <https://student.unsw.edu.au/wellbeing>
- Disability Support Services: <https://student.unsw.edu.au/disability-services>
- UNSW IT Service Centre: <https://www.it.unsw.edu.au/students/index.html>
