Standard MPsysch(Clin) Progression Plan

• The standard progression plan provides an overview of the typical workload across the 2-year MPsysch(Clin) program. There would be some changes to these hours from year-to-year although the plan provides a good estimate of the contact hours associated with the various stages of the program.

• Please note that given the professional nature of the program, classes and placement work will occur outside the standard university term dates (during term break, O week and flex week).

• All program hours stated are estimates and includes only class and placement hours. These hours do NOT include time for completion of course assignments, reading, out-of-class tasks, client work preparation, report writing and other placement related admin duties.

• Any questions associated with the progression plan should be directed to Dr Chien Gooi (Program Director).
COURSEWORK
Tuesdays: 10am-1pm PSYC7212
ACCP1 (+ some Wed) 4-7pm PSYC7001 Psych Assessment

Thursdays Full Day: PSYC 7223 PEP1 workshops

T1: Feb to May

CLINIC
PEP1 PSYC7223
In clinic: Paired work/observation requires flexible schedule (from mid-March)
~2.5 days per week

RESEARCH
Research thesis supervisor assigned; can start work on thesis proposal and submit when ready

NB Clinic/coursework time is defined as including class time, direct client time, supervision and formal meetings; does not include time for completion of course assignments, client preparation, report writing and other placement related admin duties.
Standard MPsyhc(Clin)/PhD Progression Plan

• The standard progression plan provides an overview of the typical workload across the 4-year combined program. There would be some changes to these hours from year-to-year although the plan provides a good estimate of the contact hours associated with the various stages of the program.

• Please note that given the professional nature of the program, classes and placement work will occur outside the standard university term dates (during term break, O week and flex week).

• All program hours stated are estimates and includes only class and placement hours. These hours do NOT include time for completion of course assignments, reading, out-of-class tasks, client work preparation, report writing and other placement related admin duties.

• Any questions associated with the progression plan should be directed to Prof Angela Nickerson (Combined Program Coordinator) or Dr Chien Gooi (Program Director).
