

Course Outline

PSYC1062

Psychological Science of Wellbeing

School of Psychology

Faculty of Science

T3, 2020

1. Staff

Position	Name	Email	Consultation times
Course Convenor	Dr Sue Morris	s.morris@unsw.edu.au	By appointment
Course Co-convenor	Prof. Jacquelyn Cranney	j.cranney@unsw.edu.au	By appointment

2. Course information

Units of credit:	6
Pre-requisite(s):	None
Exclusions:	Students who have taken PSYC1031
Teaching times and locations:	PSYC1062 Timetable

2.1 Course summary

The subject matter of this course covers theories and research regarding the science of self-optimisation (eg time management, study skills, emotional regulation), and provides students with opportunities to improve self-management capacity that could help them survive, and thrive, in university and beyond. Self-management is the capacity to work effectively toward meaning goals, and to be flexible in the face of setbacks. The course is open to all students as a general education offering, and its online delivery mode will allow for some time/place flexibility while learning.

2.2 Course aims

This course will introduce you to evidence-based strategies for self-management capacity. Self-management is the capacity to work effectively toward meaningful goals, and to be flexible in the face of setbacks. The rationale for this course is that self-management skills constitute a type of graduate capability that, in theory, should help you survive the stressors of university life, but also help you to thrive (i.e., do well) in many aspects of your personal and professional life at university and beyond. In this course we will introduce you to the theories and research relevant to topics such as stress, well-being, motivation, emotional regulation, common barriers to achieving, metacognitive strategies, study strategies, and working/living with others. The topic will emphasise real-life applications of psychology, such as the capacity to self-reflect (e.g., understand when new material has or has not been sufficiently learned) and strategies to minimise dysfunctional stress. You will be given many opportunities to acquire skills related to these topics, and this should help you to acquire the knowledge necessary for the assessments. Although the course draws on principles of psychological science, you do not need any formal knowledge of science or scientific terms.

The general **aims** of this course include:

1. To demonstrate how psychology can inform our understanding of self-management, wellbeing, resilience and achievement in university and beyond.
2. To introduce students to strategies and tools that promote self-management, wellbeing, and achievement.
3. To give students opportunities to practice applying these strategies and tools in a range of contexts.
4. To enable students to become aware of some of the links between self-management, wellbeing, and achievement.
5. To provide students with opportunities to enhance their understanding of their own styles of thinking related to coping and success.

This course is particularly relevant to the following 2019 APAC (Australian Psychology Accreditation Council) Standards (introductory level), which are expressed as learning outcomes in APAC 2.3:

4.5 Student Experience: Students are informed of the availability of personal and professional support services and are *equipped with skills to adequately maintain their own well-being*.

3.2: Program Learning Outcomes, in particular:

1.1.iii: psychological health and well-being

1.2 Apply knowledge and skills of psychology in a manner that is reflexive, culturally appropriate and sensitive to the diversity of individuals.

1.3 Analyse and critique theory and research in the discipline of psychology and communicate these in written... formats.

1.6 Demonstrate self-directed pursuit of scholarly inquiry in psychology.

2.3 Course learning outcomes (CLO)

At the successful completion of this course you (the student) should be able to (in relation to APAC 2019 standards):

Learning Outcomes (and detail)	
By the end of this course you will be able to, at least at an introductory level :	
1. Demonstrate that you have had the opportunity to acquire skills to adequately maintain your wellbeing (APAC 4.5)	Minimal (passing grade) engagement with the course.
2. Demonstrate your knowledge comprehension and application regarding psychological health and wellbeing (APAC 3.2.1.1.iii)	Minimal (passing grade) in assessments, particularly exams, covering knowledge and application of: self-management, health and wellbeing; self-knowledge; motivation; emotional regulation; academic competencies and metacognition; positive psychology; connectedness & communication
3. Apply knowledge and skills of psychology in a manner that is reflexive (APAC 3.2.1.2)	In particular, demonstrate minimal (passing grade) expressed self-knowledge in relation to the topic areas above, and display: a willingness to critically examine assumptions underlying one's own and others' beliefs and reports regarding human behaviour; willingness to consider multiple perspectives regarding human behaviour; a willingness to interact respectfully with course staff and other students.
4. Analyse and critique theory and research in the discipline of psychology and communicate these in written format. (APAC 3.2.1.3)	In particular, in relation to the topic areas under #2.
5. Demonstrate self-directed pursuit of scholarly inquiry in psychology. (APAC 3.2.1.6)	Complete all assessments in a timely manner, and with adequate quality to at least acquire a passing grade.

2.4 Relationship between course & program learning outcomes, activities, and assessments

Program Learning Outcomes							
CLO	1. Knowledge	2. Research Methods	3. Critical Thinking Skills	4. Values and Ethics	5. Communication, Interpersonal and Teamwork	6. Application	Assessment
1.	Online Modules [all assessments]						All assessments
2.	Online Modules [all assessments]						All assessments
3.			Online Modules [all assessments]	Online Modules [all assessments]		Online Modules [all assessments]	All assessments
4.			Online Modules [all assessments]		Online Modules [all assessments]		All assessments
5.				Online Modules [all assessments]		Online Modules [all assessments]	All assessments

Knowledge - Aligns with UNSW Graduate Capability of Scholarship

Research Methodology – Aligns with UNSW Graduate Capability of Scholarship

Critical thinking skills - Aligns with UNSW Graduate Capability of Scholarship

Values and Ethics - Aligns with UNSW Graduate Capability of Professionalism

Communication, Interpersonal & Teamwork Skills - Aligns with UNSW Graduate Capabilities of Professionalism, Leadership, Global Citizenship

Application - Aligns with UNSW Graduate Capabilities of Self-management, Professionalism, and Scholarship

3. Strategies and approaches to learning

3.1 Learning and teaching activities

Four Modules are to be delivered through Moodle for weeks: 1 & 2 (Module 1), 3 & 4 (Module 2), 5 & 7 (Module 3), and 8 & 9 (Module 4). Modules may include self-reflection, resources, activities, and implementation tasks. The tasks will include reading materials, watching videos, completing worksheets, and writing forum posts. Students will need to complete these tasks by 11:59pm of the Sunday of the second week of the Module, to gain up to 10% per Module. Because it is imperative that students engage as they work through the Modules, they will need to complete a certain hurdle percentage of these tasks in a timely manner, otherwise they will receive 0% for that Module. Online posts (including responding to others' posts) will be a key component of these tasks. End of module quizzes and the final examination serve formative (module) and summative assessment purposes.

The assignment allows students to display their capacities for comprehension, application and creativity with respect to the course material. Note that there may be some additional activities which could enable students to gain bonus marks.

3.2 Expectations of students

It is expected that students are aware of UNSW Assessment policy and understand how to apply for special consideration if they are unable to complete an assignment/exam due to illness and/or misadventure.

It is expected that students have read through the School of Psychology Student Guide.

Moodle contains content topic materials, assessment materials, and any updated information. You are expected to check Moodle regularly. You are also expected to regularly check your UNSW email.

NOTE: THIS COURSE REQUIRES SIGNIFICANT FORTNIGHTLY ASSESSABLE ENGAGEMENT THROUGH MOODLE. This course is currently conceived to require on **average per week** (in the 10-week 3-course term) a minimum of 12 hrs: (a) 7 hours of engagement with the module and associated tasks; (b) 4 hours of engagement with assignment preparation and exam revision; (c) 1 hour of communication with course staff and fellow students.

Under no circumstances will employment be accepted as an excuse not to meet expectations for class participation, group work, or assessments. Remember, the term times are very short (final examinations will be upon you before you know it), so it is your responsibility to ensure that you do not fall behind with the ongoing assessment demands of the course.

The **final exam** for this course will take place during the UNSW examinations period and will be **online**. You also need to be aware of the timing for supplementary examinations (see School of Psychology Student Guide). Only one date will be set for the supplementary examination. Moreover, there is a time-limit on late submission of the assignment: exactly two weeks after the due date.

Students registered with Equitable Learning Services must contact the course co-ordinator immediately if they intend to request any special arrangements for later in the course, or if any special arrangements need to be made regarding access to the course material. Letters of support must be emailed to the course coordinator as soon as they are made available.

4. Course schedule and structure

Each week this course typically consists of (a) 7 hours of engagement with the module and associated tasks; (b) 4 hours of engagement with assignment preparation and exam revision; (c) 1 hour of communication with course staff and fellow students.

Week	Module (+ primary readings)	Online modules	Self-determined activities	Assessment Task
Week 1 14/09/20	MODULE 1 Introduction to key concepts, theories and research; Cognitive fallacies, self-knowledge (Rubber Brain Chap.1,2, 3; Bernstein et al. Chap 2 reading)	Curated material with integrated module practical tasks	Online module; assessment work	
Week 2 21/09/20	MODULE 1 (cont.)	As above	As above	Module 1 deadline at 11:59pm on Sunday of Week 2.
Week 3 28/09/20	MODULE 2 Motivation: academic skills, metacognition, & scientific thinking (Chap.7)	As above	As above	
Week 4 06/10/20	MODULE 2 (cont.)	As above	As above;	Module 2 deadline at 11:59pm on Sunday of Week 4.
Week 5 12/10/20	MODULE 3 Psychological flexibility, stress, positivity (Chap.4, 5, 6)	As above	As above;	
Week 6 19/10/20	FLEX WEEK			
Week 7 26/10/20	MODULE 3 (cont.)	As above	Online module; assessment work	Module 3 deadline at 11:59pm on Sunday of Week 7.
Week 8 2/11/20	MODULE 4 Connectedness & Communication; Moral decision-making, conclusion (Chap.8, 9, 10)	As above	As above	
Week 9 9/11/20	MODULE 4 (cont.)	As above	As above	Module 4 deadline at 11:59pm on Sunday of Week 9.
Week 10 16/11/20	Assignment	Resources available on Moodle	Work on Assignment.	Assignment due Friday, 20 November at 4pm.
Study period 24/11/20	NA		Study for final examination	
Exam period 27/11/20	NA		Study for final examination	

5. Assessment

5.1 Assessment tasks

All assessments in this course have been designed and implemented in accordance with UNSW Assessment Policy.

Assessment task	Length	Weight	Mark	Due date
Assessment 1: Module Practical Tasks	TBD	40%	TBA	Sunday, Weeks 2, 4, 7, 9
Assessment 3: Assignment	TBD	30%	TBA	Week 10
Assessment 4: Final exam	TBD	30%	TBA	Exam period

The final date that any submission will be accepted is 2 weeks after the due date (with appropriate Special Consideration or lateness penalty).

MODULE PRACTICAL TASKS

You will be asked to complete several practical tasks in each Module. The tasks may include (but are not limited to) reading chapters of the text and other materials, watching videos, completing worksheets, writing forum posts, writing reflections, completing a knowledge quiz. **There are 3 possible scores for each of the four Modules (Weeks 1&2, 3&4, 5&7, 8&9):**

- 10%:** You must *satisfactorily* complete 100% of tasks by the deadline to receive this score.
- 5%:** You will receive this score if you *satisfactorily* complete 70-99% of tasks by the deadline.
- 0%:** You will receive this score if you complete less than 70% of the tasks by the deadline.

For each module, the number of tasks will vary, and so the meaning of “70%” will vary.

Therefore, if you complete *all* 100% of the tasks using reasonable effort (see the ‘gave it a good go’ policy below) by the deadline, then you are guaranteed a score of 40% for the Module Practical Tasks. The deadline for each consecutive Module will be **11:59pm on Sunday of the final week** of the module.

Note that (apart from approved Special Consideration Applications) there are **no extensions for these deadlines, and technical difficulties will not be accepted as an excuse**; thus, **we advise that you complete the tasks at least 3 days ahead of the deadline.**

IMPORTANT: Please note the following important points.

1. When you go into a Module you will see there are several tasks you need to complete, which we know can look a bit overwhelming. However, please keep in mind that several of these tasks simply require you to click on a link to read some text or to watch a video. Thus, these tasks will be marked as complete just by you interacting with the material (e.g., when you click on a link to watch a video that task will be marked as complete).
2. For all Module tasks, other than the Quiz, rather than providing individual grades, we will be using a **‘gave it a good go (GGG)’ policy**. According to this GGG policy, you must put reasonable effort into completing these tasks. If you do not put reasonable effort into a task, then we will mark that task as incomplete. Examples of violating the GGG policy include: (a) not following the task instructions (e.g., you were asked to discuss “X” but you discussed something else; you were asked to write in sentences but you used dot points, etc.), (b) not meeting the minimum required for the task (e.g., you were asked to write a minimum of 75 words but you only write 60), and (c) not putting in suitable effort (e.g., you were asked how you would explain a certain strategy to a friend so that s/he could use it

and your explanation is only a 4-word sentence). Thus, the “gave it a good go” policy is not about always being right and perfect, but rather about following instructions and demonstrating reasonable effort when completing these tasks.

3. For the **Module Quiz** you must gain 60% in order to ‘satisfactorily’ complete the task; however, you can attempt it as many times as you want before the Module deadline.

4. **There are no extensions for Module Practical Tasks** (unless with approved Special Consideration). The Modules open well in advance of the deadlines so please plan accordingly and do not leave completing the tasks until the last minute. Indeed, some Module Tasks require work over several days – so get started early.

5. Where Module activities require documents to be submitted, only PDFs, Word documents, or JPEGs will be accepted.

6. The maximum word limit is indicative of the amount of effort you should put into the task. You will not be penalised for exceeding the word limit (however, failure to meet the minimum word limit may breach the GGG policy).

Moving through the Modules

As mentioned previously, each module has several tasks that need to be completed which are closely tied to the readings from the textbook. Although one goal of this course is to help you with your “surviving” and “thriving” here at university, we also expect the tools and strategies you learn to be useful in your personal and professional life. Thus, as you are moving through the modules it is also important to think about how you may be able to use what you are learning in other situations. Relatedly, sometimes you may find a particular task or module is currently not highly relevant to your life; for example, you may not feel you are currently experiencing much stress and so you may be unsure how to complete a task that asks you about stress. In these cases, it is important to put yourself in someone else’s shoes (e.g., we likely all know people who are stressed), and/or think about past situations that are relevant to what you are being asked to do (e.g., we have all likely been stressed at some point; how did you feel/cope/etc when that happened?).

In general, the Modules are designed for students to work through the sections in the order they appear. As the tasks are based on the textbook, the order of the tasks reflects the chronology of the book. We encourage you, therefore, to do the tasks in order; however, task completion is usually not contingent on completion of earlier tasks.

ASSIGNMENT (30%)

Details of the assignment will be released no later than Week 2. It will involve making a video to illustrate one concept from The Rubber Brain and/or the Modules. The deadline for submission will be 4pm, Friday of Week 10.

FINAL EXAMINATION (30%)

An online final examination, based on the content of the entire course, will be held during the examination period. More information will be given about this examination by Week 10 at the latest.

UNSW grading system: <https://student.unsw.edu.au/grades>

UNSW assessment policy: <https://student.unsw.edu.au/assessment>

5.2 Assessment criteria and standards

Further details and marking criteria for each assessment will be provided to students closer to the assessment release date (see 4.1: UNSW Assessment Design Procedure).

5.3 Submission of assessment tasks

Written assessments: In accordance with UNSW Assessment Policy written pieces of assessment must be submitted online via Turnitin. No paper or emailed copies will be accepted.

Late penalties: deduction of marks for late submissions will be in accordance with School policy (see: [Psychology Student Guide](#)).

Special Consideration: Students who are unable to complete an assessment task by the assigned due date can apply for special consideration. Students should also note that UNSW has a Fit to Sit/Submit rule for all assessments. If a student wishes to submit an application for special consideration for an exam or assessment, the application must be submitted prior to the start of the exam or before an assessment is submitted. If a student sits the exam/submits an assignment, they are declaring themselves well enough to do so and are unable to subsequently apply for special consideration. If a student becomes ill on the day of the exam, they must provide evidence dated within 24 hours of the exam or the assessment deadline, with their application.

Special consideration applications must be submitted to the online portal along with Third Party supporting documentation. Students who have experienced significant illness or misadventure during the assessment period may be eligible. Only circumstances deemed to be outside of the student's control are eligible for special consideration. Except in unusual circumstances, the duration of circumstances impacting academic work must be more than 3 consecutive days, or a total of 5 days within the teaching period. If the special consideration application is approved, students may be given an extended due date, or an alternative assessment/supplementary examination may be set. For more information see <https://student.unsw.edu.au/special-consideration>.

Alternative assessments: will be subject to approval and implemented in accordance with UNSW Assessment Implementation Procedure.

Supplementary examinations: will be made available for students with approved special consideration application and implemented in accordance with UNSW Assessment Policy.

5.4. Feedback on assessments

Feedback on all pieces of assessment in this course will be provided in accordance with UNSW Assessment Policy.

Assessment	When	Who	Where	How
Module practical tasks	1 = Week 4; 2 = Week 6; 3 = Week 9; 4 = Week 11	Coordinator	Moodle	Moodle Gradebook; Group summary feedback
Assignment	Week 12	Coordinator	Moodle	Turnitin and Moodle Gradebook; Group summary feedback
Final exam	N/A	N/A	N/A	N/A

FEEDBACK

Similar to other courses, you will receive feedback on your performance. However, given the nature of this online course and the tasks you will be completing, you may not be familiar with all the forms of feedback that you will receive. Specifically, the main types of feedback that you can expect as you move through the topic include:

- 1. Forum feedback:** In most Modules you will be asked to post to the Moodle discussion forum. A key benefit of using discussion forums is that you can read what several of your classmates think about an issue/question/etc that you have been asked to consider. It is important to make sure you read the discussion forum because this is a great form of feedback that not only gives you some idea of whether you are on the right track, but also gives you multiple perspectives (i.e., from your fellow students). Sometimes you will also be asked to respond to posts from other students, so that is another way to receive some feedback for this type of task.
- 2. Assignment feedback:** Similar to typical in-class courses, you will also receive feedback from the course staff in the marking of the assignment. This is likely to be delivered through Turnitin.
- 3. Moodle Practical Task feedback:** Within 2 weeks of the end of each Module, course staff will

enter the grade (out of 10%) for that Module. At that point, students will be able to contact course staff to discuss their grade, if desired. Students will be able to track the cumulative score they currently have for the Module Practical Tasks component throughout the course.

4. Announcement feedback: Course staff will communicate with students and give feedback via announcements on Moodle. These announcements will provide updates, clarifications, reminders, and feedback about how students are progressing in the topic. Relatedly, the course staff will also monitor the general discussion boards. However, we won't always respond immediately to posts on the general discussion boards because we want to foster student discussion; that is, students are often a great resource for answering posts on the general discussion board, and it can be a good way for students to develop a supportive student community.

6. Academic integrity, referencing and plagiarism

The APA (7th edition) referencing style is to be adopted in this course. Students should consult the publication manual itself (rather than third party interpretations of it) in order to properly adhere to APA style conventions. Students do not need to purchase a copy of the manual, it is available in the library or online. This resource is used by assessment markers and should be the only resource used by students to ensure they adopt this style appropriately: [APA 7th edition](#).

Referencing is a way of acknowledging the sources of information that you use to research your assignments. You need to provide a reference whenever you draw on someone else's words, ideas or research. Not referencing other people's work can constitute plagiarism.

Further information about referencing styles can be located at <https://student.unsw.edu.au/referencing>

Academic integrity is fundamental to success at university. Academic integrity can be defined as a commitment to six fundamental values in academic pursuits: honesty, trust, fairness, respect, responsibility and courage.¹ At UNSW, this means that your work must be your own, and others' ideas should be appropriately acknowledged. If you don't follow these rules, plagiarism may be detected in your work.

Further information about academic integrity and **plagiarism** can be located at:

- The *Current Students* site <https://student.unsw.edu.au/plagiarism>, and
- The *ELISE* training site <http://subjectguides.library.unsw.edu.au/elise>

The *Conduct and Integrity Unit* provides further resources to assist you to understand your conduct obligations as a student: <https://student.unsw.edu.au/conduct>.
